## Five Candidates For Fruit Board

Kelowna Convention of Delegates Nominates W. E. Haskins, Roger F. Borrett, O. W. Hembling, G. A. Barrat, and G. B. Ford—Lloyd, Porteous, Robison, and Heriot Decline To Stand—Remuneration To Remain At \$3,000 Per Year

Five candidates will stand for election to the B.C. Tree Fruit Board. Those who accepted nomination at the delegates' meeting at Kelowna, Wednesday were:

W. E. Haskins, Kelowna, nominated by W. J. Coe, Winfield.  
Roger F. Borrett, East Kelowna, nominated by G. F. Bolton, Glenmore.  
O. W. Hembling, Oryama, nominated by J. A. Trewill, Oryama.  
G. A. Barrat, Kelowna, nominated by S. R. Manery, Keremeos.  
G. B. Ford, Okanagan Mission, nominated by G. F. Bolton, Glenmore.  
A. K. Lloyd, J. G. Robison, Capt. H. A. Porteous and A. D. Heriot declined nomination.

**Resolutions Adopted**  
That the Tree Fruit Board, in sending out the ballots, make a clear explanation of the method of handling the ballot.

That this meeting, while in sympathy with the resolution to recommend that the Tree Fruit Board undertake the sole settlement of all rebates and claims as empowered by Paragraph 28, Clause E of the scheme under the Natural Products Marketing Act, feel that the matter should be left to the incoming Board for the 1935 season.

That the delegates secure the views of the nominees as to their policies and check their qualifications.

That a copy of all rules and regulations of the Board be mailed to shippers before the election.

That the Board be requested to publish the various amounts of the equalization fund returned to each grower.

That measures be taken by the Board to safeguard the appearance and condition of the coming season's crop by a comprehensive plan of packing and storage and preparation to prevent the whole of the destruction of fruit by improper packing methods.

**Trucking**  
That the Board give serious and sympathetic consideration to the request from Creston that one licensed shipper be given the sole right to load trucks either by barter or for cash sales.

That the proposal that members of the Board be elected for varying terms so that one member retire each year be referred to the Locals with a request for the action within six months.

That the meeting urge upon the Board the extreme importance of arriving at its policy and issuing its instructions or decisions in the name of the Board after consideration by the full Board and not by individual action of Board members.

That the remuneration of the Board members remain at \$3,000 a year.

That the Tree Fruit Board ask the B.C.F.G.A. to handle the election of Board members with the B.C. government appointing the returning officer.

That the Board send each delegate a copy of the B.C. scheme.

That the Board be recommended to pay the delegates a per diem allowance of \$5 in addition to expenses.

That annual reports of the Tree Fruit Board when sent out should include the auditor's report along with the notice of meeting seven days at least before the meetings held for the election of delegates.

**Ask Rigid Enforcement**  
That this meeting is heartily of the opinion that for the future the regulations under the Tree Fruit Board should be rigidly enforced and special privilege accorded no one.

That this meeting go on record as authorizing the payment of the Tree Fruit Board as shown in the financial statement's figures respecting preliminary expenses. (This referred to the \$10 a day matter).

That the annual report and financial statement as submitted by the Board be adopted.

That it be recommended to the Tree Fruit Board that there be no discrimination in respect of any packages that will help out in the economical distribution of our fruit.

**Oppose Signed Ballot**  
Vigorous protests were made at the meeting in Kelowna on Wednesday, of the 24 delegates elected to nominate candidates for the Tree Fruit Board, in respect of the signed ballot. Every delegate went on record as opposed to this form of ballot, which provided an easy means of identifying the voter if this were sought. It was stated that many growers simply would not vote if they had to sign their names to the ballot.

C. A. Barrat explained that the B.C. scheme called for the signing of the ballot but said that while he was quite willing that the world should know how he voted, he could understand the prejudice against a signed ballot. He said that the Board was now considering the matter.

## American Tourists Are Greatly Astonished By Scenic Wonders of B.C.

"It's very good, after hearing complaints so frequently, to meet tourists who seem thoroughly pleased with the conditions they experience on a trip to the valley," says Capt. H. P. Coombes, of the Vernon Automobile Club. "Two American tourists, from Seattle, travelled to Vernon by way of the Fraser Canyon highway and met me at the hotel. They were delighted with the scenic wonders of this area, saying that they never knew such a country existed so close to them."

"If our roads in their present condition can so affect these visitors, what might be expected in the way of tourist traffic if a hard-surfaced highway were available?" Capt. Coombes asks, with emphasis.

## Fusion of Political Parties in National Government Would Be Forward Step; John Burns

Leader of Industry Believes Problems Could Then Be Considered in Right Light

A fusion of political parties of Canada in a government so that the business men of the country might get together and without thought of party warfare, work out Canadian problems, is John Burns' idea of how Canada might best be brought out of the difficulties which surround her.

John Burns, General Manager of Burns & Co. Limited, Calgary, was in the Okanagan Valley for a few hours on Monday and in discussion with The Vernon News was very frank. The Burns Co. made a wonderful showing last year considering the difficulties which beset it and Mr. Burns was very modest in discussing its affairs. He sees improvement generally in many lines and holds firmly to the belief that a national government would prove most beneficial for Canada.

The health of Senator Pat Burns is steadily improving despite his age and his recovery from a recent indisposition is confidently looked for. John Burns was in hospital in England for many weeks and his physical condition also is much improved as the result of operations and an enforced rest.

A wonderful opportunity is Canada's in the bacon hog trade said this leader in industry. The preference granted Canada and the beneficial effect it is having is showing in the fact that 2½¢ a pound was the price for these animals when the treaty was concluded and they are now worth 8¢. Canada has increased production tremendously but is still a long way short of producing the "magnificent quota" allotted her. If by 1937 when the treaty expires, this country is not producing a much greater output of bacon hogs of the right type, Canada will have missed a magnificent opportunity.

Denmark and other European countries have been forced to cut down their exports, said Mr. Burns, and the home producers of Canada have not sufficiently expanded theirs to fill the demand. The British market demands quality and Canada has not responded in the fashion she might have done considering that bacon hogs have steadily risen in price and the market will take all we can produce. If by 1937 Canada has not measured up to the quota, or made reasonable adjustments towards that end, an opportunity will be lost which may never be presented to us again.

Mr. Burns inspected the butter-making plants at Enderby and Vernon and went from here to Kamloops and on to the Pacific coast. The beauty of the Valley in its fresh greenness, as usual, made a great appeal to him and he expressed the hope that the marketing situation would be straightened out to the satisfaction of all. He has met Mr. Hembling, he said, and had been impressed by his earnestness and the sincerity of his desire for the betterment of the growers.

## BOARD OF TRADE SENDS PROTEST TO THE CAPITAL

Second Paved Road For Aldergrove Area Deemed Quite Unjustified

Stressing their inability to understand on what grounds the alternative paved road from Aldergrove to the boundary could be justified, when, as it was stated, a perfectly good paved road already exists there, members of the Vernon Board of Trade Council, after a meeting held on Wednesday afternoon, decided to send a wire of protest to the provincial government through the Hon. F. M. McPherson and the Hon. K. C. MacDonald.

How the giving of a second paved road to one area can be justified, so long as there is none at all entering the Okanagan from the border, was the question asked by those attending.

It was suggested that, the Dominion Government having definitely turned down the request by the province for a loan, other means should be found for financing a hard-surfaced road project from the Aldergrove area to the boundary, by which the contractors agreed to accept government bonds to the value of two million dollars, was quoted as one example.

The President and Secretary were authorized again to approach all Boards of Trade with an appeal for their co-operation in requesting a campaign for this long-suffered highway.

There is already the indication, moreover, that several of the Boards in the valley are taking exactly the same stand on the Aldergrove road situation as has been adopted by the Vernon Board.

## Hembling and McGuire Clash At Meeting In The Coldstream: A.D. Heriot Chosen as Delegate

Spirited Duel Between Board Member and Cartel Manager Features Discussion

That A. D. Heriot should be the delegate to represent the district at the Kelowna nominating convention was the decision of growers of the Coldstream who met in the Community Hall on Thursday evening of last week.

Mr. Heriot, who was again elected after he had announced himself as favoring the appointment of a business manager to direct the Tree Fruit Board's work, with the Board members in control but not necessarily on a full time basis.

Earlier in the meeting Mr. Heriot made a brief review of the past year's activities, in his capacity as retiring delegate, and this roused considerable interest, but

## INTERIOR RALLY OF SPORTSMEN IN VERNON TODAY

All-Day Program of Discussion And Entertainment Has Been Planned

About twenty delegates will assemble in Vernon this morning, Thursday, for the annual convention of Interior Fish and Game Clubs and Associations. Sessions will commence at 11 o'clock in the Kalamalka Hotel when Mayor E. W. Prowse will officially open the convention and give an address of welcome.

The report of the 1934 convention chairman will be given next and then sessions will be adjourned until 1:15 p.m.

The main business, that of considering and passing upon the resolutions submitted, will occupy the afternoon. It is expected that in addition to the delegates, there will be many other interested persons attending.

**Many Resolutions**

So far the convention heads have received 28 resolutions from the Salmon Arm, Enderby, Revelstoke, Vernon and Sicamous Clubs. It is expected that other resolutions will be brought to the convention by the various delegates from clubs that have not so far submitted any.

At 6:30 a banquet will be held in the Kalamalka Hotel and a large attendance of sportsmen from outside points as well as Vernon is expected.

The program of the banquet will consist of any unfinished business and the rest of the evening will then be given over to talks by prominent fish and game authorities.

Among those expected to attend the convention and speak on topics relative to fish and game matters are R. F. Butler and J. G. Cunningham, of Vancouver, members of the Provincial Game Board, Inspectors C. F. Kearns, of Kamloops, and R. M. Robertson, of the Kootenay area, Major Allan Brooks, of Okanagan Landing, and R. W. McLeod, Supervisor of Fisheries, Vancouver. Harold Cochrane, Secretary of the local Association, has also received assurance that either Dr. C. M. Mottley or Dr. Clemens, of the Pacific Biological Station, Nanaimo, will attend and will give an address on what they propose to do this summer at Kalamalka and Okanagan Lakes in connection with the biological survey.

## Hospital Scheme Winning Approval

The Vernon Jubilee Hospital Board commenced the distribution of its circular letters, asking for expressions of opinion on its new hospitalization insurance scheme, on Tuesday, and there are already indications that there will be a good response from the people of the district. In the return mail the hospital received about 100 letters approving of the proposal, while only two or three marked their ballots in opposition.

Additional ballots may be obtained by phoning or calling at the hospital.

## Outlines Value Of Debt Relief

Rotarians Hear Alex Ogston, Official Receiver, Explain Function of Farmers Creditors Arrangement Act—Credit Is Being Restored In Unexpected Strength—Spirit of Understanding and Co-operation Is In Evidence, Speaker States

Explaining the functions of the Farmers' Creditors' Arrangement Act before a luncheon meeting of the Rotary Club in the National Hotel on Monday, Alex Ogston, official receiver under the act, declared that its launching at Ottawa was with the support of all political parties.

"There is no taint of politics in connection with this legislation," he said. "It is its own justification. The good that it does the farmers, the backbone of the country, is appreciated by all interests."

Later in his address he pointed out that the amount of reduction granted in debts in B.C. has been relatively small. Such as has been effected has been appreciated, he added, but very much more debt reduction has been accomplished on the prairies.

This legislation deals with matters of trade and commerce, and bankruptcy, and as such is construed as a Dominion function. The position is now being contested by the province of B.C., but the Dominion is assuming that the position may be maintained, and is going ahead with the application of the act.

**Aids Credit of Farmer**  
Through the intricate channels of trade in recent years the farmer has nearly always the last to be paid. Without credit he cannot continue, and the act is calculated to enhance his credit situation.

For the past century the ordinary business man, but not the farmer, has had the benefit of bankruptcy legislation, whereby he could appeal for a compromise with his creditors. Now such legislation is being made available for the farmer too.

Official receivers have been appointed, and they are the intermediaries through which the farmers act. Such receivers examine the farmer's position as to secured and unsecured debts, income, living expenses, costs of operation, and such surplus of income as is revealed is disposed towards the debts. A compromise is arranged, with the farmers' creditors being called together to evolve some scheme of settlement.

There are two fundamental considerations always kept in mind, Mr. Ogston declared. First the efficiency of the farm operator is remembered. "The act is of no use to the man who is on the land and who is merely an encumbrance to it." And secondly, there must (Continued on Page 6, Col. 2)

## Circus Day Information

Arrival: Aboard special steel railroad equipment over the C.N.R. railway early Friday morning from Kamloops.

Features: Great Burnett Family, Italian equestrians; Mabel Stark, queen of tiger trainers; Captain Terrell Jacobs, and 90 forest-bred lions; The Dazzling Burbans; The Waller's Troupe; Escalante Family, acrobats and aerialists, and immense spectacle—"The Fiesta of the Rio Grande."

Show Grounds: Jockey Club Race Track.

Tickets: On sale, 9 a.m. to 5 p.m. at Vernon Drug Co., admission, and individual, numbered grand stand chairs. Same price as at show grounds. White wagon open continuously at the show grounds, for purchase of reserved seats. Red wagon opens at the show grounds for sale of general admission tickets, simultaneously with the big show doors.

Departure: Via C.P.R. railroad at midnight for Revelstoke, where circus exhibits Saturday, June 22.

Note: There will be no street parade. None has been given since 1923.

## That Awful Time Again

## Largest Entrance Class In History of Vernon Schools: Pupils on Recommendation

Eighty-three pupils out of an entrance class of 116 in the Vernon Elementary Schools have been promoted to high school on the recommendation of the committee composed of T. R. Hall, Inspector of Schools, J. B. Beddome, and H. K. Bearst. Seventy per cent of the pupils were recommended, leaving thirty-five pupils to sit for the examination set by the Department of Education. In addition to the thirty-five to sit for the examination, five of the recommended students, Anne Beddome, Betty Kwong, Annie Zaporozan, William Knox, and Margaret Everitt, will write for honors.

This year's entrance class is the largest in the history of the school so far as the records show.

Following is a list of those promoted on recommendation:  
Margaret Elsie Atherton, Harold Desmond Bartholomew, Kathleen Maud Bartholomew, William Franklin Beals, Rosemary Ellen Bazelle, Clifford McLean Best, Anne Cameron-Beddome, Ronald Addison Bradley, Arthur James Bradley, Jean Ada Bradford, Donald Roderick Cameron, Bernard Thomas Carter, Natalia Dorothy Garky, Jennifer Clarke, Margaret Coatsworth, Marion Patricia Cochrane, Mildred Helen Conroy, Douglas Cooper, Kenneth Earle Cullen, Myfanwy Maud Davies, Howard Donald DeBeck, Margaret Everitt, Albert Walter Fisher, May Rita Ford, Anne Lois Fuhr, Ronald John Gaythorpe, Frances Gwen Gaze, Dorothea Mary Greenwood, Frederick George Hammond, Edward Clarence Holmes, Elizabeth Elsie Hornmann, Robert William Howrie, Agnes Mary Inglis, Lillias Hope Spalding Irving.

The pupils in the Elementary School will commence writing their entrance examinations on Wednesday of next week. In the High School, all pupils, except those in the matriculation classes, concluded their examinations on Tuesday and have left for their summer holidays. The matriculation examinations have now started and will be concluded on Friday of next week, June 28.

The pupils in the Elementary School will commence writing their entrance examinations on Wednesday of next week. In the High School, all pupils, except those in the matriculation classes, concluded their examinations on Tuesday and have left for their summer holidays. The matriculation examinations have now started and will be concluded on Friday of next week, June 28.

## CONVENTION OF MUNICIPAL MEN HERE ON JUNE 29

Okanagan Valley Mayors And Reeves Association To Discuss Problems

The first annual convention of the Okanagan Valley Mayors and Reeves Association is to be held in this city on Saturday, June 29, according to the announcement by Councillor L. P. Wisbey, of the Coldstream, the Honorary Secretary of this Association.

The sessions will commence at 3 o'clock in the afternoon, in the Board of Trade room, and it is anticipated that representatives of all municipal centres between Kamloops and the border will be in attendance, as the membership in the Association embraces the entire area. Matters of joint interest throughout the Interior will be under review, with the object of arriving at a united policy which may be advanced at the next convention of the Union of B.C. Municipalities.

So as to co-ordinate even further the wishes of Interior municipalities, a conference between the Okanagan Valley Association and the Union of Kootenay Municipalities is tentatively scheduled for August 13 at Grand Forks. Such a conference, it is felt, could make most beneficial results, and make possible strong and united representations.

The Okanagan Valley Mayors and Reeves Association was formed last year at Kamloops, and the Coldstream delegates, Reeve Sunderland and Councillor Wisbey, who played the most prominent roles in the organizing work, were elected to the leading executive positions.

They are now looking forward to a closer union between the Okanagan and Kootenay sections, with some united organization linking both.

(Continued on Page 6, Col. 3)

## MUSIC STUDENTS PASS ROYAL ACADEMY EXAMS

A number of music pupils of Vernon and district were recently successful in the Royal Academy examinations. Those passing were Norma Jean Ferguson, Grade IV, and Betty North, and Hilda Comber, of Armstrong, Grade III, pupils of Miss Gordon; Patrick Mackie, Grade IV, a pupil of Mr. Hobson; and Peter Hinton, Grade V, a pupil of Miss Elaine Jamieson. The last mentioned was a violin pupil, all the others being piano students.

## Band Concert Here Tonight

The Vernon City Band will give another of their popular weekly concerts in Polson Park tonight, Thursday, at 8 o'clock.

Following is the program: "O Canada," "March," "Trombone Solo," "The Monogram," soloist, F. Murray, Jr., Overture, "The Champion," Serenade, "Moonbeams," Waltz, "Flowers of the Wildwood," Overture, "Harmony Queen," March, "The Collegian," "God Save The King."

## B.C.F.G.A. Widens Scope of Activity

Extraordinary General Meeting At Kelowna Adopts Entirely New By-laws—More Elastic Powers Granted—Small Fruit and Vegetable Growers May Affiliate As Associated Members—Interior Districts Reorganized—Five In Number

Entirely new by-laws for the British Columbia Fruit & Vegetable Growers' Association were adopted at an extraordinary general meeting held Tuesday in Kelowna. These by-laws extend the scope of the association, give it more elastic powers, and enable it to meet the conditions which obtain in the tree fruit growing districts of the province. The action taken Tuesday was in line with resolutions adopted at the last annual convention of the B.C.F.G.A.

To meet the needs of small fruit and vegetable growers, who may wish to affiliate with the B.C.F.G.A. and make use of it in respect of approaches to governments, railways and other bodies, a by-law was adopted which gives them the privilege of becoming associate members, providing they are already members of producers' associations in British Columbia.

A realignment of the five districts was organized with new designations. The Main Line will remain the same. Then there will be the North Okanagan, Central Okanagan, South Okanagan, which will include Grand Forks, and the Kootenay which will extend to the Creston area.

It will not be obligatory for every registered grower to become a member of the B.C.F.G.A. If a grower is registered in the Tree Fruit Board area, he may become a member by making application to the association.

It is proposed that application forms be sent to every registered grower and that they be invited to become members.

One of the most important of the new by-laws that were adopted, was that which refers to election. The first draft was not satisfactory and at the morning session a committee, consisting of President A. K. Loyd and Secretary R. F. Borrett, was named to confer with T. G. Norris, K.C., and bring back a revised wording for the afternoon session.

As finally accepted unanimously this important by-law reads:

On or before the 15th day of April in each year, each Local Branch shall nominate one member of any Branch in the district in which such Local Branch is situate for the office of director of the association for such district and the secretary of such Local Branch shall, within seven days after the meeting of the Local Branch at which the nomination took place by certificate under his hand make a return to the secretary of the association of such nomination. The Secretary of the association shall forthwith after the period of seven days has elapsed, forward to each Local Branch (Continued on Page 5, Col. 3)

## PENTICTON MAN FOUND NOT GUILTY OF MANSLAUGHTER

Mr. Justice Robertson Agrees With Verdict Regarding Motor Accident Case

"It may be some satisfaction to you to know that I too am in agreement with your verdict," stated Mr. Justice H. B. Robertson, in commenting on the jury's "not guilty" decision delivered about 2:40 o'clock on Friday afternoon in the case of Rollin Roy Howson, of Penticton, charged with manslaughter at the Spring Assizes.

The case arose out of an accident last November 2 at the accused man, his wife, and friends were driving along Main Street at the intersection of Westminister Avenue and Front Street about six o'clock in the evening when the car in which they were riding struck down Miss Gertrude Bridge, an elderly resident of Penticton. Mr. Howson was represented by H. W. Galbraith, of this city, while the Crown Prosecutor was M. M. Colquhoun, of Penticton.

Absolute contradictory evidence on one of the vital points in the case, that of whether or not the accused man was driving his car without lights at the time of the accident, featured the trial with the defense witnesses declaring that the lights were on and those for the Crown maintaining that at the time of the accident, the lights were off.

Fire Chief Ben Dickinson, of the Vernon Fire Brigade, left this week by motor for Spokane where he will attend sessions of a fire chiefs' convention.

## Producers Urged to Keep up Flow of Cream so There May be Butter to Supply The Demand

continue to identify himself with the co-operative venture which has achieved such success. Mr. Patten said the best thing they had done during the long years he was on the board was to make the contract with the P. Burns Co., which has been the foundation of their success.

President R. J. Collett, on behalf of the association, presented Mr. Patten with a suitably engraved wrist watch, "for services rendered."

**The Great Turning Point**

The dinner meeting in the National Cafe small ballroom proved most enjoyable. In returning thanks, Mr. Patten said the association might better have given him a pair of crutches. He wished the association every success in the future to come. He paid the tribute to Manager Clarke and the staff at the creameries. Since they made the contract with the P. Burns Co., as it was expressed that he will long

## CANADIAN CLUB OF PENTICTON IS MAKING PROGRESS

Rev. R. R. Morrison Re-Elected President—Membership Nearly One Hundred

PENTICTON, B.C., June 15.—On Friday, June 14, the annual general meeting of the Penticton branch of the Canadian Club was held in the Municipal Council Chamber. An excellent record was presented for the past season, and it was unanimously conceded that the lectures and addresses given had been of outstanding interest. The membership now approximates one hundred, and attendance at meetings has increased by between 25 and 30 per cent. over former years.

The treasurer reported that finances are also in a sound condition, and there is a sum amounting to \$111.93 to carry over after all accounts have been settled. Officers for the ensuing season were then chosen. The Rev. R. R. Morrison was re-elected President, with Mrs. Advena Hearle as Vice-President. Mr. Kendall remains Secretary-Treasurer, and other members of the executive are Captain C. A. J. Bowen and J. J. Rooney, with Messrs. Huddleston and McKay as representatives for Summerland and Naramata.

The Penticton Floral Society held a peony show at the home of Mrs. Louis, Ellis Street, on Friday, June 14, following the new plan of holding their exhibitions in the gardens of members of the Society, with afternoon tea as a pleasant adjunct. Kenneth McKay, of Naramata, by his beautiful specimens of this beautiful flower, carried off three first prizes, a basket of fragrant white and pale blush pink peonies shown by him being the best item on exhibition. The next show, devoted to roses, is to be held at Wallie Mutch's home.

### Premises Broken Into

On Tuesday, June 11, the premises of the Penticton Purty Products were broken into at night and the sum of \$5 and some fruit were stolen. The police have not, so far, tracked the thieves.

On June 11, a garden party was held at Mrs. MacGregor's under the auspices of the Women's Institute. Mrs. C. G. Adams was the guest of honor, and her talk was interestingly illustrated by young members of Mrs. Burton's dancing school. Mrs. E. M. Robinson gave an account and history of each of the national dances performed.

The large juvenile population of Penticton was thrilled to its marrow on Saturday, June 15, when Barnes' "Fiesta of the Rio Grande," with its circus and menagerie visited the town and gave two performances. On the same day, the Penticton and Diamond chapters of the I.O.D.E. held a rose tag-day in aid of crippled children.

### Another Ransom Note?

Some excitement was experienced here on Friday morning, June 14, when a five dollar American bill was handed in payment at a garage, from a Chrysler sedan bearing a Washington license, and it was noted, shortly after the car's departure Southward, that the number on the bill was one of the series of "the ransom bills" connected with the Weyerhaeuser kidnapping. The police and the custom house at Coosway were at once notified, and the car was stopped immediately on arrival at the border. Meanwhile the radio became busy, and it was discovered that the number, L33431628A, was not that of one of the actual notes, although within the series; and the car continued on its way.

A very striking window show is being presented at Paul Seguel's jewelry store on Main Street. It consists of a miniature working model of the Premier Mine in Kimberley, South Africa, and reproductions of many of the most noted and historical diamonds, some of fabulous worth, such as the Koh-i-Noor, the Pitt, Orlon, Jubilee, and many other celebrated stones. One model diamond, of a rich blue in color, is very arresting in its beauty.

Heavy rain fell here on Friday afternoon and evening, and relieved the dryness from which the gardens and district generally were suffering.

### Already a Veteran

"And so your daughter is about to marry. Do you really feel that she is ready for the bride of life?" "She should be, she's been in four engagements already."

## Barnes Circus Greater Than Ever

1,080 People—750 Animals

## Tomorrow to be "Circus Day" For People of This District

Tomorrow is circus day once again in Vernon. There's only one thrill that the little-boy-you-were-carried-over-to-the-man-you-are, and that's the shivery, blissful anticipation of circus day. If you have children of your own, you deck them out in their best clothes, and take them down to see the "Big Show." If you are single, borrow somebody else's youngster to take you to the circus.

That spirit will be abroad tomorrow, when the A.I.G. Barnes Circus, with its trumpeting bands, red wagons, spangles, and pink lemonade, invades Vernon. The special steel railroad equipment will start to arrive about dawn over the C.N.R. from Kamloops.

Consequently, no end of youngsters will go to bed tonight with the alarm clock set for some unearthly hour, and will dream of a seat in the very front row, with the prettiest bare-back riders and aerialists blowing him kisses from the back of a galloping horse, or out of a trapeze swinging miles high in the air. But the sound of the alarm clock will dispel all such startling happenings, and at the first streak of dawn there is bound to be a goodly gathering of youngsters and grown-ups around the railroad yards, as almost everyone knows the circus has grown to such enormous proportions that it is impossible to hold the old-time street parades any more. But the unloading of the brightly-painted railroad cars of their burdens, the herds of elephants stepping from their side door Pullmans, the hundreds of horses, yaks, camels, zebras, and other after cage of wild animals, promises to be a real free show that will not be overlooked.

Enormous new displays have been introduced on the A.I.G. Barnes Circus this year. Over 200 acts will be shown. A magnificent extravaganza, entitled "The Fiesta of the Rio Grande," depicting the charm and gaiety of old Mexico, serves as a prelude to the circus performance proper. Hundreds of people take part in this elaborate and colossal presentation, yet it is but one of the many features with the show.

Mabel Stark and her Royal Bengal

tiger display, in which seventeen of these ferocious animals go through their paces in the big steel arena; Captain Terrell Jacobs in another arena with nineteen lions and lionesses; Walter Melton and four herds of performing elephants; Robert Thornton and his liberty horses; The Bernetti Family of riders, featuring Maria Bernetti, the youngest member of the family, with her backward somersaults from the back of one galloping horse to the back of another; The Great Waller's Troupe; The Canastota Family; The Escalante Family; and The Dazzling Burbans—present this season one of the greatest circus performances ever witnessed. Little folks will be glad to hear that the addition of a score of European clowns has increased the fun-making contingent to an even sixty.

Each season the A.I.G. Barnes Circus exhibits in more than 200 cities. It travels from its winter quarters in Baldwin Park, California, and makes a trans-continental tour from coast to coast. It covers more than 20,000 miles, and, in twenty-five years, has grown to be one of the world's largest amusement organizations. Every day more than 2,000 meals are served in the spacious dining tent. Its policy has always been to see just how much can be given to its patrons, and the enormous seating capacity in the big main tent, enables the management to give so much for so little.

There will be two performances given here, starting at 2 p.m. and 8 p.m., with the doors opening an hour earlier to enable visitors to view the menagerie and listen to the music of Professor Charles Rodrick's military band in a program of interest.

General admission, tickets, and individual, numbered, grand stand chairs will be on sale circus day at Vernon Drug Co. On the show grounds at the Jockey Club Race Track, the white ticket wagon will be open all day for the grand stand chairs, and the red wagon, with general admission tickets, will open at the same time the door to the big tent opens.

## FALKLAND LADIES PLAN STRAWBERRY SOCIAL THIS MONTH

FALKLAND, B.C., June 17.—The Ladies' Auxiliary of the United Church held their monthly meeting on Thursday afternoon at the home of Mrs. W. J. McClelland. There was a full attendance of members on this occasion and several visitors. The ladies are planning on holding a strawberry social about the end of the month.

Quite a number of young people attended the dance held in the Glenora hall on Friday evening last, the local orchestra supplying the music. Others went to Silver Creek where there was also a dance the same evening.

A league baseball game was played at Westwood on Sunday when the Falkland boys were visitors there. It resulted in a score of 12-4, in favor of Westwood.

Report P. Warren, who has been attending college in the east, arrived home on Tuesday to spend a short holiday at his home here before returning to Toronto.

Visitors here over the week end were Mrs. A. Jessiman and children, of New Westminster, also Mr. and Mrs. Milne, of Edmonton.

Other visitors in the valley are Mr. and Mrs. N. Gillis, and Miss A. Gillis from Nova Scotia, who are visiting Mr. and Mrs. E. Y. Gillis, of Glenora.

Mrs. A. Matt, of Chasse Creek, was an Armstrong visitor on Tuesday.

Miss Miriam Warren is spending the holidays at her home here.

Mr. and Mrs. J. Kozar and family moved this week to Tavishington, where they will make their future home.

Mr. and Mrs. E. Cole and son spent the week end here.

Walter Cole, of Armstrong, was a visitor here on Friday, holding mass in St. John's Church that morning.

## WOMEN'S INSTITUTE AT LUMBY HEARS TALK BY MRS. McLACHLAN

Provincial Superintendent of Women's Institutes Visits District

LUMBY, B.C., June 16.—Mrs. V. S. McLachlan, Superintendent of Women's Institutes, addressed a special meeting of the Lumby and District Women's Institute in the Community Hall on Saturday.

Mrs. Nick Quessell, with her daughter, Anita, left for her home at Williams Lake on Tuesday after a few weeks visit to her parents, Mr. and Mrs. R. A. Copeland, being accompanied on the journey by Miss Laurie Quessell.

Mr. and Mrs. J. Goady, of Ottawa, relatives of the late Rev. Fr. Goady, were visitors to Lumby last week.

Ivor Hanson, of Cherryville, has returned home from the Vernon Jubilee Hospital, after undergoing treatment for blood poisoning.

Mr. and Mrs. B. Bohmter have moved up to Sugar Lake.

Mr. and Mrs. Armstrong are in from Vancouver visiting relatives, and are on route to Edmonton where they have purchased a farm.

An electric storm struck Lumby last week and followed by rain which was welcomed by farmers and gardeners generally.

## WOODEN TENNIS COURTS OPENED AT SUMMERLAND

Play Commences On New Project—Official Opening To Be This Week

SUMMERLAND, B.C., June 17.—The two new wooden tennis courts, which are unique in this Valley, were unofficially opened on Saturday afternoon. The official opening will take place this week.

The courts adjoin the badminton hall and are surfaced with two by three boards on the flat, and are stained green with white lines. The whole layout is very modern, and those who played said it was quite satisfactory. The construction cost was approximately \$1,500.

A great deal of interest and anti-patagon has been aroused by Dr. Todd's visit regarding Adult Education made possible through the Carnegie Foundation, and the committee appointed at the meeting addressed by him is as follows: Mrs. E. Butler, Mrs. A. W. Vanderburgh, K. P. Caple, M.A., Dr. H. L. McLarty, and I. C. Smith, M.A.

### Talks on World Peace

Mrs. Frank Mossop very ably put the aims and proposals of World Peace-Ways before members of the Women's Institute at the meeting held in the Parish Hall on Friday afternoon. This is the first time this work has been publicly brought forward in Summerland.

World Peace-Ways is an international organization with one creed and policy, the establishing of peace and the abolishing of war. It is non-political and non-sectarian. It aims to arouse men and women into action against all war propaganda, and to show by business methods that peace is obtainable and desirable, and that peace pays. The society's greatest aim is the practical application of "Peace on Earth."

Those who are interested are asked to sign a petition sheet, which is in duplicate. One half is sent to the Federal Government and one to the office of World Peace-Ways of Canada.

The head office of World Peace-Ways of Canada is at Vancouver under Mrs. Brenner's leadership. The movement was started in 1931, and its growth has been phenomenal. No salaries are paid, and the organization is dependent on membership fees and members' donations.

## SCREEN PRODUCTION, "SWEET MUSIC," HAS VERY TALENTED CAST

Rudy Vallee, world famous radio crooner, comes to the Empress Theatre on Monday and Tuesday, June 24 and 25, in the latest and most pretentious of Warner Bros. mammoth musicals, "Sweet Music."

Vallee will be heard in a half dozen catchy songs written especially for the production. Ann Dvorak also sings and dances in spectacular numbers. Still another songbird who will be heard in the picture is Helen Morgan, famous torch singer who made such a hit in "Show Boat."

The picture, which carries a definite plot is filled with romance, drama and hilarious comedy. It is the story of a young college boy who organizes a band and makes good as a crooner and orchestra leader in the big night clubs and over the radio.

Good News!

## HOME NEWS

Let it go with you on vacation

NO matter how pleasant your vacation surroundings may be, the regular arrival of ALL THE NEWS from home each week will become mighty eventful to you if you order us to send The Vernon News, to you . . . It is so inexpensive and so satisfying that you will be cheating yourself not to have it as a regular visitor, every week, while you are away.

## THE VERNON NEWS ALL THE HOME NEWS

## SPECIAL SUMMER RATE

If you are a regular subscriber to The Vernon News, simply phone 34 and tell us to send it to your vacation address. If you are not a subscriber, phone, stop in at our office or write us to send you The Vernon News for six months at \$1.50. We will send it to you while you are on vacation and to your home when you have returned.

#### FRUIT INDUSTRY IS PARAMOUNT

APPROACH of the time for the election of the Interior Tree Fruit Board finds growers in two hostile camps. Supporters of the original Board and opponents. The situation may have clarified somewhat before publication but this is the fact at time of writing. Despite the clamor in the House of Commons at Ottawa, the producers in the Okanagan Valley are a unit in support of the marketing legislation.

The unanimity there is in support of the legislation makes it clear that the differences arise over the operations of the Board which was entrusted with the administration of the scheme under the act. This substantiates the views of the minority who held that the operation of the scheme in the first year of its existence would be most difficult.

It would be a mistake to minimize the difficulties which confronted the members of the Tree Fruit Board to which was entrusted the operation of the brand new scheme for marketing. They blazed an uncharted trail. Theirs was an herculean task. A task which called for qualities which apparently the triumvirate placed in control do not possess. At least this is the conclusion to which a large number of enthusiastic supporters of the legislation have come as the result of one year's operations.

There are those who say that the growers in the Okanagan are up to their old tricks, always starting something new and then condemning it before it has half a trial. This is a statement in which there is a measure of truth. Possibly the fruit growers and those directly dependent on the results of their operations, expect too much. Marketing schemes and plans, of which there have been at least half a dozen in the last decade, have been entered on with high hopes. One by one the truth regarding them has been demonstrated. One by one they have been altered and discarded. Like wise men, the fruit growers, once convinced of mistakes, discard them and try something new. It is this ability to change and not to flog a dead horse in which lies the hope for ultimate success.

Because there is dissatisfaction with the operations of the Board during the past marketing season, may not be any great reflection on the ability or the work of the men constituting it. Possibly they were attempting the impossible—Very possibly they made the best of a bad job. But the fact remains that a large number of fruit growers are not satisfied with the returns they received for their fruit and are laying the blame on the Board for this situation.

The members of the Board have just concluded a tour of the tree fruit growing areas. They did immediately following the issuance of the report of their operations. Some growers hold the view that they did not follow the instructions of the scheme as regards lapse of time between the presentation of the report and the balloting. However, the delegates have been chosen and the election of the Board is imminent.

From the number of resolutions of confidence passed in the Board, the members of that body have reasons for belief in their re-election. However, even among the warmest supporters of the Board there is a desire for improvement and possibly for some measure of change. There is a growing feeling that the operations of the Board can be improved.

It is a remarkable fact, and a warm testimony to the worth of the services of the members of the Board, or to their political strategy, that despite the dissatisfaction with returns, the admitted need for changes in the scheme, facts disclosed in the auditor's report, the unauthorized drive made at Ottawa for central selling, they should be endorsed without disclosing their policy. They have hinted at changes they have in mind, at the use of powers in the act they did not employ last year, but they go so far to nomination without a declared policy. This is unparalleled in the history of fruit or any other sort of politics in Canada.

It is evident there will be more than three names placed in nomination by the delegates and that the growers will ballot. Already, Roger Borrett, Secretary of the British Columbia Fruit Growers' Association, has announced his candidature. The names of others, also well qualified for positions on the Board, are being discussed. If there are more than six placed in nomination the delegates will eliminate all but that number and the growers will ballot.

Quite considerable thought has been given to the operations of the Board during the past marketing season. It is said on the authority of the head of the Associated Growers, that the operations of the Board and of the Cartel were of benefit. This is undoubtedly the truth. It is admitted by all, they made some mistakes.

So far, there has been no satisfactory explanation of the difference in the treatment given to the growers in the Creston and Grand Forks area, and to those on the Main line of the C.P.R., and in the Okanagan. Problems are admittedly different but to leave part of the producing area free and to control other portions, is a mistake under any circumstances. All candidates for election to the Board should announce their policy so that an intelligent ballot may be cast.

Many growers have come to the conclusion that there are not full time jobs for three men in the direction of affairs of the fruit industry. Last year the members of that body promoted the B.C. Chamber of Agriculture and then moved on to Ottawa for the formation of a Canadian chamber of which nothing has been heard since the fiasco at Ottawa. Admittedly the Board was appointed late in the season. If there was no necessity for constant application during the marketing season of 1934-35 there never will be.

It is the affairs of the fruit growers concerned only themselves there would be no reason for those not engaged in it being vocal. So long as the fruit industry is the main support of the residents of the Okanagan Valley it is bound to be a dominant topic wherever two or three are gathered together.

#### PRESS FOR REMOVAL OF CAUSES

IMMEDIATELY there is suggestion of the purpose of organizations which call themselves citizens leagues. This goes for the Citizens League of Canada which has been organized with headquarters at Vancouver.

This body has issued an organization memorandum which should clarify the air and possibly remove it from a more or less nebulous thing into the clear air of business purposes.

Its declared purpose are:  
To vigorously combat Communism in all its forms.  
To assist in all efforts for the preservation of peace, order and good government.  
To take such other action as now or hereafter may

### Earth's Trinity

*A man—a woman—a child—these three,  
Part of earth's beautiful Trinity;  
A homely cottage, a bit of lawn,  
Soft grass for children to tumble on;  
A lattice for roses, to bloom and cling,  
An apple tree, with a battered swing.*

*The world will answer its own grim call,  
Nations and kingdoms will rise and fall;  
Riches and poverty wax and wane,  
Winter and summer come back again;  
Seed time and harvest upon the earth,  
The endless pageant of death and birth.*

*But always the tides of the heart will flow  
Steady and strong as the seasons go,  
And the warm, sweet eyes of a maid will stir  
And call her mate to the side of her—  
A man—a woman—a child—these three,  
Fulfilling earth's beautiful Trinity.*

—EDNA JAKES

be considered advisable in the general interests of Canadian citizenship.

To press for immediate official action which will be effective in solving the problem of the unemployed.

It is declared that the Citizens' League of Canada is in no way a third or a political party.

If there is any criticism to offer of the declared objects of the league it is that the last purpose should have been the first.

It might not be necessary to do any other thing to combat Communism than to solve the problem of the unemployed. Unemployment is the only reason, so far as we can see, that Communism offers any attraction to the sane people of Canada.

During what is commonly regarded as the Winnipeg strike, which had its origin in Communism, many good men and true volunteered for service in manning the necessary services of policing, operation of waterworks pumping stations, and electric lighting plants, etc.

In this time when the ugly monster has really raised its head at many points in Canada it is necessary to have Citizens' Leagues but the real and potent point of attack should be for removal of conditions which bear so onerously on civilization. Membership in such a league is not to be construed as a pledge for the defense of capitalism or for the retention of devices which promote the interests of a few at the expense of the many.

#### BE GOOD SPORTSMEN

PREPARATIONS for the annual gathering of the sportsmen of the Interior, this year to be held in Vernon, gives rise to the thought that there are very many residents who enjoy fishing and hunting but who do not contribute their share to efforts to continue these sports on their present high plane.

There has not been any time in recent years when there was such good fishing, so easily accessible, as there is today. Okanagan lake is right at our doors. When were so many wonderful fish taken from that lake as during December 1934 and in the spring of 1935? When was the fishing so good in Kalamalka lake? And by the same token was there ever such good pheasant hunting or so many deer shot as last fall?

This is no mere coincidence. It is the result of conservation and propagation measures intelligently applied. Fishery officers and game wardens have had standing solidly behind them a solid volume of public opinion organized by the fish and game associations.

This being so, it is for the substantial elements in the community to back these bodies in their good work. Business benefits through the preservation of excellent sporting districts. Business men should acknowledge this and assist in the good work at least by membership in the organizations formed by sportsmen.

#### BARKERVILLE QUIET ON SUNDAY

A 73-YEAR-OLD custom was broken in Barkerville, B.C., when the stores were closed on Sunday. The innovation commenced on June 2.

There is more to it than meets the eye. Hitherto the merchants have kept their places of business open seven days a week, and many of them remained open till nine o'clock on Sunday nights for the convenience of the miners from the creeks. Saturday afternoons and Sundays have been clean-up days and presumably the boys are in a hurry to spend their money. Presumably the business men wanted to get some of the money while there still remained a fair portion with those who labored so hard for it.

It was in 1862 that Bule Brothers opened the first general store in that mining camp, and through good times and evil, the merchants labored to supply the wants of the miners. It is some commentary on the willingness of business men to serve their customers that they should keep the shops open every day and until late at night. But it was a long time for the fact to sink in that they owed something to themselves. It is also a good bet that not all of them were married.

#### Suspension Threat No Idle One

The Ontario Department of Public Highways is to be commended on its efforts to check the alarming increase in motor accidents and fatalities by imposing more severe penalties for violations of traffic rules. The reckless driver is not only a menace to himself and his friends who may be accompanying him, but also to other drivers who are the innocent victims of his wilfulness.

That the Department is making a serious attempt to reduce the death and injury toll is apparent in the fact that approximately one thousand motor vehicles drivers in the Province have had their licenses suspended during the first four months of this year, according to a statement of Hon. T. B. McQuesten, Minister of Highways.

Since September 1930, more than 15,000 suspensions have been imposed and 2,000 of these are still in force. Mr. McQuesten states "I cite the figures to show that the threat of loss of driving privileges is no idle one. Those who persist in breaking the law, violating the rules of safety, will be driven from our highways."

The Minister regards with concern the continued increase in auto accidents, injuries, and deaths, and asks for increased co-operation of law-enforcement agencies in the effort to bring about better observance of traffic regulations.

Figures for April, which are not very encouraging, indicate an increase of sixteen per cent in the number of accidents in comparison with the same month a year ago and an increase of seven per cent in the total for the first four months of the year. The number of deaths doubled (from 19 to 38), and there was an eighteen per cent increase in the number of persons injured.

Surely it is time to take care!—BARRIE EXAMINER

### Forest Shadows

By Grace Jackson

The jungle, African or Indian, is most certainly haunted, according to those who should know. Travelers, not all of them unduly imaginative either, tell of a forbidding atmosphere warning against too great a knowledge of its trackless depths. Its dark secrets, among them perhaps the clue to the mystery of our own earlier lives on earth, a key to the riddle of life itself, are jealously guarded. Its privacy is kept inviolate by the invisible presence that dog the explorer along tangled paths, an inimical something that seems to say, in no uncertain terms, "Keep Out." Bright poisonous flowers, insects that can kill a man, snakes sheathed in iridescent scales whose evil beauty masks their deadliness, are outward manifestations of this powerful foe.

The English countryside is haunted too, or was. "They" are shy creatures, sensitive to every change of light and sound, and it may be that the throbbing of radios, crooning alien melodies, and the electric waves that must impregnate the air from the spreading network of gigantic pylons, have destroyed them or driven them into some hiding-place from which they will emerge only when our world has gone forward to a less hideously mechanized age.

Center spirits these, seldom out to kill. They will receive you among them, unseen as they are, letting you come and go freely, and you may learn all, provided that you keep a few natural laws without which you will be blind to everything they have to show.

But in this vast evergreen forest lurk no wandering shades. No atmosphere, either for good or for evil, makes itself felt as yet beneath these splendid trees.

Did it have none for those lean hunters, brave with the eagle's feather, when they stalked their wild quarry through its shady fastnesses? Or did we conquer and drive out the red men's spirits as we drove themselves, and have not yet succeeded in so impressing the land with our own fancies that the half-gods and half-heroes of our forefathers' vivid imaginations can be felt and sometimes almost seen?

Perhaps there were never ghosts or fairies here. Perhaps there never will be. And yet—sometimes in the silent forest, on some warm summer afternoon, there may be a half-heard sigh, a whisper, a rustle, a figure almost seen before it slips behind a great tree.

It may be that our own occult folk have not yet had time to settle down properly. They may be paying out the land, to see whether they can bring it under their spell successfully or not. After all, these vast spaces, towering trees, and wide lakes are very different from the cosy tucked-up little meadows and copes of the older lands, and they may not like the change.

On the other hand, it may mean that the day is at hand when we can no longer venture, unafraid, into the deep silences of forest trails. The gods and heroes of a vanishing race may be returning to their hunting grounds after a brief disappearance, merely an interval of watching and waiting to see what the new people might bring.

And will they look kindly on the usurping pale-faces?

### From The Vernon News Files of By-gone Days

The City Council have decided to replace the present wooden pipes to the sewer with steel. It will mean a saving of about

TEN YEARS AGO \$7,000 in upkeep.—A solemn Thursday, June 18, 1925 inaugural service took place in the Methodist Church on

Wednesday night to mark the establishment of the United Church of Canada.—The Seventh Day Adventists' convention which is at present encamped in Polson Park, opened its program on Thursday. Services are conducted all day long.—The fruit crop in the south end of the Valley is looking very promising, especially near Penticton.—Some members of the City Council are objecting to the C.M.R.'s having their camp sports on Sunday afternoon.—Music teaching is to be part of the course in the High School.—There were over two hundred cars counted at the annual Summerland Experiment Station picnic last week. Fish are reported very good at Sugar Lake.—Many of the old-timers of the Okanagan Valley were present at the Rotary luncheon on Monday.

Several messages have been received here this week announcing the safe arrival in England of the 2nd C.M.R.'s. In this regiment there are hundreds of Vernon men.—Fort George has now changed its name to Prince George.—A. K. Stuart, who 25 years ago, launched The Vernon News into existence, and who conducted it for about a year, is at present in the city visiting.—There are 54 pupils writing entrance examinations for the High School this week.—The various fraternal societies of the valley have decided to have a united Flower Decoration Day on Sunday, July 4. The object of this service is to decorate the graves at the cemetery of the various lodge members.—The Penticton City Band has volunteered almost to a man to serve overseas.

At the City Council meeting on Monday night, a Bridgeman, on behalf of associates, renewed his offer to supply the city with light.—The plan is to have the power generated at Shuswap Falls.—C. B. L. Lefroy left the city on Tuesday for Toronto, where he will meet his bride-to-be, whom he will marry on July 3.—L. Truxler states that he has a box of "Royal Grade" cigars for the Vernon firehouse team if they defeat Revelstoke tomorrow.—Young F. Billings had a narrow escape yesterday when he was riding bucked him off and then dragged him by the stirrup for some distance.—Dominion Day will be celebrated in Vernon with one of the biggest programs ever put on in the Okanagan.—Donald McDonald, of Blue Springs, an old-timer in the valley, died last week. He had been all for many months.—Local growers have formed a new organization to be called The Vernon Fruit Association in addition to the B.C.F.G.A.

The spring Assizes have been in progress all this week. The principal cases are hog stealing, horse stealing and some immorality.—Strawberries are beginning to arrive in considerable volume on the local market.—The hop crop at Okanagan Mission, has in large part, had to be plowed under this year, owing to infection of the plants.—About six Indians from the Enderby reserve were brought before Magistrate Price Ellison last week charged with the slaughter of many deer, including does and fawns. They were each fined and warned not to do it again.—There have been about 200 houses and 100 tents recently erected in Rossland and about 1,000 men are engaged in mining operations there.—Mrs. Peter Bessette, of Lumby, a well known woman of that district, died last week.—Posted on the City Clerk's bulletin board on Monday was a notice having the imprint of a man's foot on it. A reward of \$5 is offered for the arrest of anyone who made this print in a local garden last week, while stealing vegetables.—Wheat is now selling in Vernon for two cents a pound retail.

THIRTY YEARS AGO electrical power or electric light.—The plan is to have the power generated at Shuswap Falls.—C. B. L. Lefroy left the city on Tuesday for Toronto, where he will meet his bride-to-be, whom he will marry on July 3.—L. Truxler states that he has a box of "Royal Grade" cigars for the Vernon firehouse team if they defeat Revelstoke tomorrow.—Young F. Billings had a narrow escape yesterday when he was riding bucked him off and then dragged him by the stirrup for some distance.—Dominion Day will be celebrated in Vernon with one of the biggest programs ever put on in the Okanagan.—Donald McDonald, of Blue Springs, an old-timer in the valley, died last week. He had been all for many months.—Local growers have formed a new organization to be called The Vernon Fruit Association in addition to the B.C.F.G.A.

### Canadian Grain Board Act

The Canadian Grain Board Act of 1935, introduced into the House of Commons on Monday, June 10, by Rt. Hon. R. B. Bennett, confers extensive powers on the Wheat Commission which it sets up. This commission will be empowered to market all Canadian grain. If this act goes into effect as introduced, it will give the Wheat Commission the exclusive right to buy and sell grain in Canada. The Winnipeg Grain Exchange may cease to function. The elevator companies will be the agents of the new body. The act declares elevators to be "a work for the general advantage of Canada."

The commission will have three members. It is proposed by the bill that it shall take over all the carry-over of wheat in Canada and set up a new organization for the marketing of Western Canada's grain both on the domestic market and in other countries.

Opposition is being encountered and stiff battle is raging in the House of Commons at Ottawa. Premier Bennett is said to be determined that the new measure shall go into effect. A new crop year begins in another month and a half and the organization must be set up without delay if it is to handle this crop.

The Winnipeg Free Press is an outspoken critic of the act now before the House of Commons. In a recent issue it elaborates its position as follows:

**The Dominion Wheat Bill**  
Parliament now has before it a bill which would create a Canadian wheat monopoly under the control of a federal board. The proposed board would have power to compel delivery of all the wheat in Western Canada, to sell it, to operate all the grain elevators, and generally to be a dictator in the wheat business. This is the Bennett Government's answer to the wheat problem. It is the most important measure of the parliamentary session so far as the West is concerned.

The first thing that meets the eye about the bill is that it admits the total failure of the Government's present wheat policy. This confession is certainly in order, if late in the day. Among the Government's numerous failures its bungling of the wheat situation has been possibly the most disastrous.

In 1930 Mr. John I. McFarland took over the business of the pools and became the Government's agent for marketing most of the wheat crop. Glowing promises were made to the farmers then. Mr. McFarland was to carry out Mr. Bennett's flaming election pledge to fight for markets for Canadian wheat. Four and a half years later the Canadian wheat trade is stagnant and demoralized. So little fighting has been done for markets that Argentina has displaced Canada as the chief exporter of wheat to Great Britain. The world carver has dropped substantially in the past year, but Canada's remains at a huge figure, with only six weeks of the 1934-35 season to run and another harvest on the way. The Dominion treasury is practically sure to take an immense loss on Mr. McFarland's operations. A year or two more of this system of disposing of the crop and the Canadian wheat trade will sink out of sight.

The Government admits its programme has collapsed—otherwise there is no excuse for the bill—but it takes a peculiar way out of the difficulty. The policy of "controlled selling, of putting all the wheat in one basket and trying to get a price for it, has broken down. Any sensible business would say the right course now is to remove the controls and see what can be done in the way of speeding up trade and getting back lost markets, by free selling. This, however, is a simple bit of logic which makes no appeal to the subtle economic planners at Ottawa. What they propose now is more of the same policy that has landed the country in its present fix. Control having brought the wheat trade to a desperate situation, the Government blithely suggests more control. The only difference is that under the new plan the control would be more complete and more rigid than it has been. There is still a vestige of free trade in the grain business. There would be none at all under the wheat bill.

Should this bill pass and become operative, the results will be predictable with absolute certainty. Economic laws in this case would work as smoothly as the laws of arithmetic. The sales resistance created in Britain and Europe by successive Canadian attempts to hold up the price through "orderly marketing," first under the pools and later under Government auspices—would be multiplied many times. It was bad enough to confront the overseas buyers with a voluntary organization of producers formed to jack up prices. It was worse to put the financial credit of the Government behind this venture and a dictator in charge. It will be the last straw to create a monopoly in Canadian wheat under state control. The buyers who can get along very nicely without Canadian wheat when its price is too high for them, will be more anxious than ever to show they can do without it if and when Mr. Bennett's wheat board takes charge.

But who are the proposers of the wheat bill? They are the members of a Government which is on its way out and at most has three months to live. Virtually at the end of their term they come to the collapse of a wheat policy followed for five years and propose a drastic law which will, from all accounts, destroy an agency hitherto essential in the conduct of the grain business. There would hardly be time for the wheat bill to go into effect before a Dominion election must be held under the law. In these circumstances there is strong ground for believing that the wheat bill is an election dodge intended to supply material for Good Government campaigners who would otherwise be hard pressed for something to tell the western farmers.

But even if this bill is an honest effort, it is entirely out of order. A Government with only a few months to go before appealing to the country, and admitting the failure of one of its major policies, has no authority to proceed with such a measure. It must either make way for its critics or, if it can, obtain a mandate to try again. In the present plight of the Canadian wheat trade there is a case for Government intervention of some kind, but not until this Parliament has been dissolved and the country has voted. Up till then the right line for the Government is to leave bad enough alone.

**John I. McFarland's Views**  
John I. McFarland, General Manager of the Canadian Wheat Pools, and formerly an operator in a big way on the Winnipeg Grain Exchange, holds very opposite views to those expressed by the Free Press. There is every probability that if his health permits he will head the new commission. In a recent address given to the Regina Canadian Club he summarized the wheat situation very carefully. Quoting from his utterances, we reproduce the following:

"World wheat production, exclusive of Russia and China, in the years 1922 and 1927 inclusive, averages 3,310 millions of bushels per year. That quantity proved sufficient to go around and left a fair world carry over at the end of each season, except that at the end of the 1927 crop season, the world carry over was 100 million bushels but the previous year average was more than a fair portion of that increase was in Canada. There were no complaints of under consumption in those years."

"Now let us examine the next six crop years, from 1928 to 1933

## PINNED BY HORSE, PEACHLAND MAN FRACTURES HIP

Stanley Wraight Rushed To Hospital Following Accident On Road

PEACHLAND, B.C., June 16.—A serious accident occurred on Stanley Wraight on Friday evening when the horse which he was riding took fright at some object on the road and jumped off the road near the residence of J. Wilson with such force that the animal stumbled and fell pinning the rider underneath. He was rushed to the Summerland Hospital immediately where it was found that he had suffered a broken hip. Stanley Wraight is one of the newer members of the ball team who has shown signs of promise and will be missed from the team.

A car belonging to T. Redstone of the Peachland Garage, was driven over a drop of about four feet at the "bump" last Wednesday. The car was driven by Raymond Redstone, it is believed, and he lost control of it when the steering gear broke. No damage was done to either car or occupants and the car was driven right on into the lake where it remained for several days before it was possible to get it back on the road.

R. Palmer, of the Experimental Farm, was the speaker at the Women's Institute meeting held on Friday afternoon in the Municipal Hall. He spoke on the subject of Leonardo da Vinci and gave a most interesting account of the life of this great artist, which was much appreciated. R. Atkinson, of the Experimental Farm, had been scheduled to speak on fruit drying, but was absent in Vancouver, and this address was promised for a later meeting.

Miss Helen Stewart, of the Carnegie Library Demonstration committee, had interviewed members of the Executive in regard to calling a meeting together so that she might put the whole demonstration scheme before a representative group. It was decided that the Women's Institute would arrange for this meeting to be held at Peachland, June 16, at eight in the Municipal Hall. Miss Stewart was anxious to have as many questions asked as possible to make the project understood and as many Institute members as could attend were urged to be present.

The committees which had been canvassing for the Memorial fund reported a nice sum collected, while some of the committees had not yet completed their canvass.

It was decided to make June 27 a decoration day in which the cemetery would be visited and flowers placed. A committee of Mrs. P. N. Dorland, Mrs. M. Watson and Mrs. C. C. Heighway was appointed to see that graves of Institute members were remembered. A solo by Mrs. W. E. Clements "Danny Boy," a duet by Mrs. W. S. Clarke and son, Bernie, and a humorous recitation by Mrs. F. Young were much enjoyed.

**Prize Announced**  
A silver comport valued at \$8 which was donated to the Fall Fair by the Robert Simpson Co., of Regina, their first contribution to the fair, was announced to be given as a special prize to the one winning the most points in the fair.

The Ladies Auxiliary of the Canadian Legion held a most enjoyable bridge drive and tea on Wednesday afternoon in the Legion Hall, with the first prize going to Mrs. L. B. Fulk and the consolation to Mrs. E. Ruffles.

The Peachland ball team were turned back by Summerland on the southern diamond in a 3 to 2 game, with a lucky hit by Les Gould, with two men on bases turning the game in

## Normandie Breaks Record For Atlantic Crossing

An aerial view of the new giant French liner Normandie as she sailed majestically up New York harbor to complete her maiden crossing of the Atlantic in which she created a new Atlantic record of four days, 11 hours and 42 minutes

Summerland's favor. Dan Cousins hit a two base hit the first ball over the plate and scored when Harold Cousins followed with another two bagger.

This was the only score on either side until Dundson scored in the fourth and tied the game. In the fifth Gould's three base hit brought Thompson and Lefty Gould home before him, bringing Summerland in the lead. Eddy Cousins scored in the eighth to tie the score, but the umpire's decision called him out for running on a caught ball, while Peachland contended that he did not leave the base until the ball was caught and was safely home before the ball.

With the bases full in the seventh Verne Cousins came to bat and hopes were high for one of Verne's good hits, but he was put out at first. The locals played a better game and hit much better, but just failed to make the grade. The score by innings:

Peachland ..... 1 0 0 1 0 0 0 0 2  
Summerland ..... 0 0 0 1 2 0 0 0 3

Batteries: T. Clements and V. Cousins, Gould and Spencer. Umpires, Fullman and Heighway.

**School Move Opposed**

A further discussion of the Trepanier School property was occasioned by a letter received by the School Board at their meeting on Friday night from the Council of Public Instruction.

This stated that a protest had been received against its sale from Chairman W. Todd and R. N. Martin. Inspector T. H. Hall, who was present at the meeting, declared that he would not recommend the opening of this school at a distance of two miles from the school at Peachland as every move now was for consolidation. If this building was required for the Trepanier people as a meeting place he considered that an offer should be made by them which would meet the offer made and accepted by the School Board at a previous meeting, and declared that he would write the Council of Public Instruction to this effect.

## FORMER PROVINCIAL APIARIST IS DEAD

VICTORIA, B.C., June 18.—Among readers of The Vernon News are doubtless many beekeepers who will regret that W. J. Sheppard, former Provincial Apiarist for British Columbia, died on Tuesday at his home in Victoria in his seventy-fifth year. Mr. Sheppard was responsible for the direction of the provincial apiary inspection service for many years prior to his retirement five years ago.

## B.C.F.G.A. WIDENS SCOPE OF ACTIVITY

(Continued from Page One)

a complete list of all persons nominated for the office of director in the district in which such branch is situated, and the Secretary of each Local Branch shall cause a meeting to be called on such notice as may be reasonable for the purpose of electing by secret ballot the director for the district for the ensuing year. Such local meetings shall be held not later than 10 days before the annual convention.

Forthwith upon the holding of said election in each Local Branch the Secretary of each Local Branch shall make a return to the Secretary of the Association, certify the result of the ballot in his branch showing the number of votes obtained by each nominee.

The Secretary of the Association shall compile a statement by districts of the result of the ballots as shown by such returns and shall report to the directors the result of the election.

The nominee in each district, obtaining the highest number of votes shall be the director of the association for such district for the ensuing year. The directors shall at their first meeting elect a president from among their number and appoint a secretary and shall fix his remuneration.

The by-law governing membership now reads:

"Any producer registered as such under the British Columbia Tree Fruit Board, or a Local Board constituted under the provisions of the Natural Products Marketing Act, Statutes of Canada, 1934, shall become a member on application to the association."

The question was raised whether every registered grower was not automatically a member of the Association. President Loyd explained that while authority from Ottawa gave the Board power to subscribe to the association, there might be the odd grower who did not want to belong to it and it was felt that it would be only fair to put the membership on the basis laid down in the section quoted above. The by-law of the Association would be contributed by the Board. There would be no direct levy for this purpose.

**Associate Members**  
Considerable discussion revolved around the matter of associate members. J. J. Campbell urged that there should be no open door to associate members as this course would permit persons inimical to the growers' movement to exert a dangerous influence.

P. French interpreted the by-law dealing with the question as being designed to permit the small fruits growers and vegetable growers to associate themselves with the association, whose live membership was confined to tree fruit growers. Mr. French pointed out that in the past, the small fruits and vegetable growers had been useful members of the association and he felt they should be given the right to co-operate as associate members.

Secretary Borrett remarked that the Association needed funds and besides many business men were anxious to co-operate with the Association. Messrs. King and LeGuen were appointed a committee to redraft the associate membership clause which as finally adopted read:

"Associate members who shall be such persons who do not possess the qualifications provided but who are producers of fruits or vegetables and are members of a producers' association in British Columbia and have paid the sum of one dollar yearly to the Secretary in advance in respect of such membership. Associate members shall have the right to be heard, but shall not have any right to vote at meetings of the association."

The general meeting will no longer be held in January but more probably in May. The clause respecting this provides for the annual convention being held not later than May 31. President Loyd explained that it was desirable that the convention be held at the same time as the Tree Fruit Board meeting.

The new by-laws will provide for the setting up of a district council, the chairman of the Local Branches in each district constituting the council for such district.

There will be five districts, each of which will elect a director and the five thus elected will form the Board of Directors of the Association. These are as follows:

1. Main Line; Sorrento, Salmon Arm and Kamloops.  
2. North Okanagan; Armstrong, Vernon, Coldstream and Oryama.  
3. Central Okanagan; Okanagan Mission, Okanagan Centre, Whiteford, Ellison, Rutland, Glenmore, South East Kelowna and Westbank.

4. South Okanagan; Naramata, Peachland, Summerland, Penticton, Oliver, Kamloops, Osoyoos and Kelowna.  
5. Kootenay; Nelson, Robson, Creston, Harrop, Procter and Nakusp.

Mr. Campbell urged that it was desirable that two districts be set up in the Kootenays owing to the great distance. Mr. Loyd said this was recognized and an explanation would be given Creston. There had been a movement for another district on the west side to break the big gap between Summerland and Osoyoos but for reasons of economy he hoped that neither application would be pressed until the next annual convention.

Mr. LeGuen asked why Okanagan Centre was not included in the North Okanagan district as this was the logical place for it and in other matters Okanagan Centre was invariably associated with Vernon. Mr. Loyd said that Okanagan Centre would be consulted and its wishes respected.

Mr. Loyd also explained that Westbank which formerly had been included in the Westside district had asked to be included in the Kelowna district. It is proposed to divide the Kootenay (exclusive of Grand Forks, which will be in the South Okanagan district) into five districts. These will combine to elect a general district member to the B.C.F.G.A. Board.

The question was put to the chair as to whether it was necessary that the members of the Tree Fruit Board be ex-officio members of the B.C.F.G.A. Board.

## WESTBANK NEWS ITEMS

WESTBANK, B.C., June 17.—Westbankers travelling to the coast recently included Miss M. J. Dobbin, who motored to Portland, Oregon, last Monday, accompanying her brother and his wife, to their home in that city after a holiday spent here. Mrs. Jack Gellatly is also spending a few weeks at the coast, at Vancouver, as also is Robert Basham.

Mrs. C. Butt and Miss F. Hannam were hostesses to the T.T.C. Club members at their regular meeting held at the former's home last week. The list of flowers for the W.V.I. Fall Fair was completed at this meeting, the members of this Club supplying the prizes.

**No Danger**  
"I hope you are not afraid of microbes," apologized the paying-teller as he cashed the stenographer's check with soiled currency.

"Don't worry," said the pert young thing. "A microbe couldn't live on my salary."

Living expenses not exceeding \$5 a day and actual travelling expenses of directors, delegates and members of the executive and members of committees when attending meetings held at the direction of the executive will be defrayed out of the funds of the association.

The directors may take a poll from the members on any matter they desire at any time.

Provision is made for appointment of representatives to the Canadian Horticultural Council.

The association will be divided into the Local Branches, as indicated in the set-up of the five districts and such additional branches as may be applied for in writing by ten or more members in good standing and approved by the directors.

The annual general meeting of each Local Branch must be held not later than April 15. The quorum will be five members in good standing. A member domiciled 25 miles or more distant from his Local Branch may vote either in person or by proxy.

A member cannot vote in more than one Local Branch.

Each Local Branch may annually nominate a representative as provided in the Marketing Scheme, a delegate to attend the electing convention of the B.C.F.G.A.

A branch may elect one delegate for every 50 members or fraction thereof to attend the annual convention.

Ex-officio associate members will include the federal and provincial ministers of agriculture, the deputy minister of agriculture, the provincial and district horticulturists, the dean of the faculty of agriculture, University of B.C., and superintendents of Dominion Experimental Stations.

The question of life members was left over until the next annual convention. Those who are now life members will be continued as such.

The directors are empowered to employ such servants or agents as may be necessary.

**Those Attending**  
Among those attending were: J. E. T. Warrington, Naramata; Mr. Gault, Naramata; S. W. Dufon, Penticton; O. W. Hembling, Oryama; C. M. Watson, P. LeGuen, Vernon; H. A. Porteous, Oliver; D. E. Burpee, Osoyoos; C. S. Squires, Robson; W. B. Huskin, Penticton; D. M. Rutland, Summerland; P. E. French, Vernon; J. J. Campbell, Nelson; H. W. King, Kelowna; J. C. Williams, Naramata; C. A. Hayden, Capt. Keenan, Vernon; A. K. Loyd, Whiteford; R. P. Borrett, East Kelowna; C. F. Morgan, Penticton, and Robt. Cheyne, Glenmore.

**Making a Garden**  
Man ploughs and plants and digs and weeds,  
He works with hoe and spade;  
God sends the sun and rain and air,  
And thus a garden's made,  
He must be proud who tills the soil  
And turns the heavy sod,  
How wonderful a thing to be  
In partnership with God.

## FINE RESULTS OF ORGANIZING WORK FOR JERSEY MILK

W. T. Hunter Reports That Toronto Marketing Is Improving Rapidly

The Canadian Jersey Cattle Club's receipts for the first five months of this year are up 50 per cent, according to W. T. Hunter, who recently returned to this city, from Toronto, where he was engaged in organizing work of the Toronto Trade Mark Jersey Shippers' Association.

The receipts referred to by Mr. Hunter come from registration and transfer fees. There has also been a great increase in the value of Jersey cows, as a result of Jersey milk campaigns, and good business, generally, has been resulting.

Today there are 14 dairies delivering Jersey milk in bottles, as under the Association's plan, with caps and registered trade mark. About 125 herds are now inspected and licensed, shipping to Toronto, and 50 herds are shipping to other points, such as secondary cities like St. Thomas, Hamilton, and Galt.

In Toronto, Mr. Hunter reports, Hunt's restaurants have become thoroughly "sold" on the suggestion of using Trade Mark Jersey Milk exclusively, and soon this chain will be taking 1,500 bottles of the milk daily.

Mr. Hunter, pursuant to instructions received following the preliminary meeting of the Association held last March, visited almost all the breeders supplying Jersey milk to the various dairies, inspected the herds and premises, and made recommendations regarding the furnishing of licenses to produce Jersey Milk under the registered trade mark arrangement.

Deduction certificates, authorizing the taking of four cents per hundred pounds of milk, excluding surplus, by the dairies from the accounts of the producers, is the system inaugurated, and Mr. Hunter reports that there has been almost 100 per cent. approval.

The linking in of restaurant and shop co-operation has resulted, particularly in the case of the Hunt's firm, with greatly stimulated sales through advertising.

Mr. Hunter has recommended a production program, to further the good work already started, and there has been an enthusiastic reaction. Some time ago a considerable surplus of Jersey milk on the Toronto market was reported. Whether this was a "real" surplus or not was a moot point, but the situation was being reflected in returns to the dairymen. The publicity campaign and organization effort, however, now point to a vastly improved situation for all concerned.

By-law 48 provides that "all members of the association shall pay in respect of such membership such levy as the directors decide that a levy is necessary, as the directors may determine, but not to exceed one-fifth of a cent a box or package based on the previous year's shipments. Such levy shall be collected in such manner as the directors may deem advisable."

This by-law was questioned and President Loyd explained that it was the nature of insurance in the event that the association found such course necessary. It was not intended to use such powers without consulting an annual convention.

Mr. French and others considered this good business and the by-law stood. A sum, not exceeding 50 cents per member, as the directors may determine, will be remitted to the secretaries of the Local Branches to cover the expenses of such branches and their district councils.

The remuneration, if any, of the president and members of the board of directors will be fixed at the annual convention.

Living expenses not exceeding \$5 a day and actual travelling expenses of directors, delegates and members of the executive and members of committees when attending meetings held at the direction of the executive will be defrayed out of the funds of the association.

The directors may take a poll from the members on any matter they desire at any time.

Provision is made for appointment of representatives to the Canadian Horticultural Council.

The association will be divided into the Local Branches, as indicated in the set-up of the five districts and such additional branches as may be applied for in writing by ten or more members in good standing and approved by the directors.

The annual general meeting of each Local Branch must be held not later than April 15. The quorum will be five members in good standing. A member domiciled 25 miles or more distant from his Local Branch may vote either in person or by proxy.

A member cannot vote in more than one Local Branch.

Each Local Branch may annually nominate a representative as provided in the Marketing Scheme, a delegate to attend the electing convention of the B.C.F.G.A.

A branch may elect one delegate for every 50 members or fraction thereof to attend the annual convention.

Ex-officio associate members will include the federal and provincial ministers of agriculture, the deputy minister of agriculture, the provincial and district horticulturists, the dean of the faculty of agriculture, University of B.C., and superintendents of Dominion Experimental Stations.

The question of life members was left over until the next annual convention. Those who are now life members will be continued as such.

The directors are empowered to employ such servants or agents as may be necessary.

**Those Attending**  
Among those attending were: J. E. T. Warrington, Naramata; Mr. Gault, Naramata; S. W. Dufon, Penticton; O. W. Hembling, Oryama; C. M. Watson, P. LeGuen, Vernon; H. A. Porteous, Oliver; D. E. Burpee, Osoyoos; C. S. Squires, Robson; W. B. Huskin, Penticton; D. M. Rutland, Summerland; P. E. French, Vernon; J. J. Campbell, Nelson; H. W. King, Kelowna; J. C. Williams, Naramata; C. A. Hayden, Capt. Keenan, Vernon; A. K. Loyd, Whiteford; R. P. Borrett, East Kelowna; C. F. Morgan, Penticton, and Robt. Cheyne, Glenmore.

Snow has remained late in the mountains this year and Hill Tunnel at Princeton took the first load of 7,000 feet.

A sensation was caused in Revelstoke last week when a human skeleton was found by city workmen engaged on sewer repairs. The skeleton was found in the remains of the old town which died of smallpox about 1893 and who was buried there when that part of town was a forest. The skeleton was found above a sewer pipe, but this is explained by the fact that when that sewer was first laid, certain sections of ground were excavated and joined up by tunnelling and it is thought that in this way a section of sewer may have been pushed through a tunnel without knowledge that a body was buried there.

## Town and District

Mr. and Mrs. A. T. Bugollson, of Revelstoke, were visitors in Vernon this week.

Alex Smith and C. B. L. Lefroy left for Vancouver by motor on Tuesday morning.

W. J. Stewart, J. H. Pearson and G. B. King were Penticton visitors to this city last week.

D. B. Butchart, of Salmon Arm, was a business visitor to this city during the early part of this week.

H. F. Chapin, H. B. Everard and R. J. Christian, all of Kelowna, were visitors in Vernon on Monday.

Cecil Griffith, of Vancouver, a former resident of this city, was in Vernon this week, renewing friends and acquaintances.

Mrs. J. Garven, of Vancouver, is at present in the city on a visit to her unstable Ian Garven, of the Vernon City police force.

E. R. Buckell, Dominion Entomologist, Vernon, was in Kamloops last week to meet Dr. Arthur Gibson, Dominion Entomologist, who is touring the west.

L. A. Lang returned to Vernon on Sunday from Vancouver where he attended a convention of representatives of the Confederation Life Assurance Co.

The ladies' weekly competition, held at the Vernon Golf Club on Tuesday, was won by Mrs. Chester Nolan, with Mrs. E. J. Sunderland in second place.

Mrs. W. W. Wood, of Vernon, returned to her home on Tuesday from Victoria, where she was called by the sad news of the death of her father.

Last week the police raided "Red" headquarters at Princeton and seized a large quantity of literature. Eight men considered to be agitators were recently arrested.

Lorne Marrs of the Bank of Montreal staff at Merritt has been transferred to Trail. Lorne is a brother of Larry Marrs of Vernon, and is a frequent visitor to Vernon.

The Rev. D. P. Watney, who is in charge of All Saints' Anglican Church during the absence of the Rev. H. C. B. Gibson, returned on Saturday from a short trip to Vancouver.

Last week the Department of National Defense set up a camp at 4 Mile on the Big Bend road. The men from this camp will clear away small slides and boulders and thus facilitate movement of supplies to the mines and other road camps.

Commencing last Saturday the C.P.R. inaugurated its ferry service between Revelstoke and Golden. This enables tourists to bridge the 90-mile gap on the Trans-Canada Highway. The ferry service will continue until the end of the season, September 15.

The Vernon Legion Cricket team suffered a severe setback at the hands of the Revelstoke eleven on Sunday in a game at the Revelstoke cricket grounds, losing by 108 runs. Revelstoke had 163 for seven wickets while Vernon was all out for 55. For the winning side, Aldwood was the outstanding player, retiring with 40 not out.

On a recent Sunday evening the Kamloops Fish and Game Protective Association asked each of the local fishermen to contribute a portion of his catch so that patients in the Royal Inland Hospital might have a taste of the sporting fish that inhabit the waters in that locality.

G. E. Wiseman, who has been C.P. Express Co., agent at Red Deer, Alta., has been transferred to Kelowna and assumes his new duties on July 1. Mr. and Mrs. Wiseman leave Red Deer on June 28. They are keen golfers and no doubt while residents of Kelowna will take part in inter-city play with Vernon.

An address delivered by Dr. K. Brandon on the results attained through the use of serum for immunization from measles was recently reported in Eastern Canada newspapers. Dr. Brandon is the son of Mr. and Mrs. A. S. Brandon, now of Revelstoke and formerly of Vernon. The address was given before a medical convention in Toronto.

Charles Clark and Cyril Parkhurst, members of the Rotary Club of Vernon, were guests at the meeting of the Revelstoke club last week. They report that members of that club are greatly exercised over the vandalism at Williamson's Lake where the bathing houses have been damaged. The property at the lake was improved during the years when J. J. Horn, Superintendent of the C.P.R., was President of the Revelstoke Club. Members of the Vernon club were shown over this resort some years ago.

Found guilty of driving to the common danger, Gordon C. Cruise, of Vancouver, and C. F. Kirschner, of Kelowna, were each fined \$10 and costs by Magistrate William Morley in City Police Court on Monday morning. The case arose out of an accident on Sunday afternoon at the corner of Pleasant Valley Road and Pines Street when cars driven by Messrs. Cruise and Kirschner collided. Mr. Cruise was driving down Pine Street in a heavy automobile and Kirschner was proceeding north along Pleasant Valley in a light coupe when the cars crashed. Damage to Mr. Kirschner's auto amounted to \$145, while only very small damage was done to Mr. Cruise's car.

Dr. Arthur Gibson, Dominion Entomologist, arrived in Vernon on Monday on his annual tour of western laboratories of the Dominion Entomological Branch. While in the city, Dr. Gibson conferred with the local branch of the Dominion Entomological Service at the Court House, and he also visited Kelowna House, and he was selected by later, Dr. Gibson was selected by the University at its recent convention for the signal honor of the degree of Doctor of Laws, for his outstanding contributions to entomology. He has been associated with the Dominion service for 34 years and his contributions were of such merit that he was appointed to the highest position in the field of entomological work in the Dominion upon the death of Dr. Hewitt in 1922.

Stanley Barnes is at present at Vancouver on a short trip.

Cecil T. Bulman of Vernon, was a business visitor to Kamloops last week.

Guests over the week-end at the home of Charles Wylie, of this city, were Mr. and Mrs. Gordon Keatly, of Vancouver. Mr. and Mrs. Keatly left Vernon on Tuesday morning.

Miss Alice Johnson, of this city, left for Nelson on Friday of last week to visit for the summer months with her sister, Mrs. H. McLean, of that city.

V. C. Irons, advertising counsel, Vancouver, arrived in Vernon on Wednesday. Mr. Irons left the same evening for Kelowna and will return to this city on Friday.

Mr. and Mrs. Hamilton Lang, of Vernon, have as their guest at the present time their niece, Miss Joan Bywater, of Vancouver. Miss Bywater arrived on Monday to spend a week.

A joint shower honoring Mrs. Mark Wakefield, the former Miss Ruth Dean, whose marriage took place recently, was held at the home of Mr. and Mrs. W. L. Pearson on Thursday of last week.

Frank Roff, of Vancouver, was a week-end visitor to the home of Mr. and Mrs. Albert Smith, of this city. While visiting here, Mr. Roff recalled the days he and Mr. Smith spent at Morse, Sask., where they both homesteaded in 1909.

At a meeting of the Vernon Women's Institute on Tuesday, it was decided that the Institute will suggest that instruction in handicrafts be taken up under the adult education scheme being advanced by University of British Columbia authorities.

"The Little Frog Prince," was the play put on by Mrs. Rourke's pupils, at the summer closing of the kindergarten on Wednesday morning, of last week. The children's singing and acting showed unusual ability and pleased very much the parents and friends who were present.

P. E. French, of this city, and quite a number of prominent Shorthorn breeders from all parts of the Interior, last week attended the annual Shorthorn field day held at the beautiful ranch of Mr. and Mrs. E. C. Cotton, of Riske Creek, near Williams Lake, in the Cariboo.

Farewell services by Adjutant Cooper will be conducted in the Salvation Army Citadel on Sunday next, as he and Mrs. Cooper are leaving the city next week. As yet, it is not definitely known where they are being transferred. Adjutant and Mrs. Cooper have been in charge of the Salvation Army in Vernon for the past two years.

An article giving a resume of the history of the fruit situation in the Okanagan Valley in recent years, written by Miss Margaret Ormsby, the daughter of Mr. and Mrs. G. L. Ormsby, of the Coldstream, appeared in the latest edition of the Toronto Saturday Night, which reached Vernon this week. It was written by Miss Ormsby, especially for the paper at the request of the Editors.

The second judging of gardens in Vernon under the Vernon and District Horticultural Society's garden competition was completed this week. The third and final judging will take place in August. F. C. Palmer, Superintendent of the Dominion Experimental Station, Summerland, and C. H. Bennett, a prominent commercial grower of Summerland, were the judges. While in the North Okanagan, both Mr. Palmer and Mr. Bennett also judged gardens at Enderby.

Permission was granted the Canadian Bank of Commerce to proceed with the foreclosure of the balance of the securities from the W. E. Chapple estate on the Bank's application before Mr. Justice H. B. Robertson in Assize Court on Friday last. A counter claim by Mr. Chapple for \$25,000 direct and \$20,000 indirect damages against the Bank for alleged fraud and misrepresentation in reference to taking of certain securities as collateral for a loan was dismissed by His Lordship. W. B. Bredin, of Kelowna, and H. W. Galbraith, of this city, appeared for the Bank, while Mr. Chapple conducted his own case.

Canadian ice cream by law must contain not less than 10 per cent. of milk fat and no other kind of fat.

## INTERIOR RALLY OF SPORTSMEN IN VERNON TODAY

(Continued from Page 1)

As the Vernon Association and local and Valley sportsmen have long been asking for some survey along the lines proposed, the address by Dr. Mottley or Dr. Clemens should prove interesting.

On Wednesday afternoon a committee composed of Mrs. Blakely, of Kamloops, C. W. Mobely, of Salmon Arm, and Frank Boyne, President S. P. Seymour and Secretary Harold Cochrane, of the local Association, prepared the final draft of the resolutions which had been sent in for discussion by other Clubs.

The Vernon delegates are Frank Boyne, Vice-President of the local Association, and E. Cliff, a former President and an ardent sportsman.

A meeting of the Vernon and District Fish and Game Protective Association was held in the Board of Trade room on Friday evening last when several matters concerning the convention were discussed and also other general business transacted.

George Gartrell, of Summerland, Fisheries Inspector, was present and a resolution was passed thanking him for his work in placing traps at several lakes in this district and assuring him that the Vernon Association will be responsible for the maintenance of any fish traps put in in this district.

It was also decided that a delegation should attend on the City Council asking for permission to shut off the creek flowing out of Kalamalka Lake for a period of about three hours a week so that the many carp may be exterminated.

President S. P. Seymour outlined a plan for a proposed trip to Park Mountain on the week end of July 1. Pack horses will be provided and the actual cost of the trip outside of food and transportation to the lake will be about \$3.50 a person. Anyone interested is asked to get in touch with President Seymour.

Mr. and Mrs. G. C. Tassie, of the Coldstream, have as their guest, Miss M. Stewart, of Calgary.

Mrs. A. H. Wallbridge, of Vancouver, was a visitor to Vernon last week, as the guest of Mr. and Mrs. J. E. Leslie.

Mrs. V. S. McLachlan, of Victoria, Superintendent of the B. C. Women's Institutes, arrived in Vernon on Friday, in the course of a tour of Interior Institutes.

On Monday night seventeen members of the Armstrong Lawn Bowling Club held a very enjoyable night competition with Vernon on the greens of the Vernon Lawn Bowling Club.

Mrs. C. Hamilton Watts sailed for the Orient from Vancouver on Saturday of last week on the "Empress of Japan," and will be absent from her home in this city until November. While in the Orient she will visit her daughter, Mrs. Paul Maslin.

A party composed of Mrs. T. Hyland, Mrs. H. Woodhouse, Mrs. F. Boyne and her son, and A. E. Hayhurst, left Vernon by motor on Sunday for Vancouver. The ladies will attend sessions of an Eastern Star convention. Mrs. Woodhouse is the matron of the local Foster Chapter Order of the Eastern Star.

J. J. Tighe, an executive of Burns and Co., Ltd., Calgary, accompanied by his daughter, Miss Elsie, is leaving Vernon today, Thursday, by motor for Calgary. Mr. and Miss Tighe spent about ten days at a cottage at Okanagan Landing. While here, Mr. Tighe, who is a very keen angler, secured some beautiful fish.

Jimmy and Homer Cochrane, members of the Vernon Golf Club, playing over the course of the Kamloops Golf Club on Sunday last in the Leyland Cup competition, secured a major share of the day's prizes. Jimmy won the second low net and the low gross for 36 holes and the low net for 18 holes, and Homer walked off with the hidden hole competition.

Guests at the home of Miss Irene Megaw last week were Mr. and Mrs. W. McIntyre, of Tacoma, Wash. Mr. and Mrs. McIntyre are former residents of this district, having lived at Okanagan Landing about ten years ago. They are on their way home after a trip to Toronto. Mr. McIntyre took the first printing press into the Klondike at the time of the gold rush many years ago.

Manitoba, the most industrialized of the three prairie provinces, had 1,073 manufacturing establishments in 1933, compared with 970 in the previous year.

## Hembling and McGuire Clash At Meeting In Coldstream

(Continued from Page One)

became out of hand. F. B. Cossitt, who capably presided as chairman, injected a tone of friendly restraint which at opportune times cooled the atmosphere.

Middleton Resolution Endorsed  
Only one resolution was adopted by the meeting. This was introduced by William Middleton, who acted as the secretary of the meeting, and was seconded by E. Henderson. It was given unanimous support, and the wording was as follows:

"Whereas the qualifications of some of the fruit growers who may be nominated for election on the Tree Fruit Board may not be well known to the majority of the registered growers or to the delegates.

"Be it therefore resolved that this meeting recommend that in the event of more than three growers being nominated for election the delegates elected to nominate candidates for election on the Board shall personally interview each candidate as to his qualifications and policies before a vote is cast by the delegates, and further that the delegates shall be placed on the ballot form to be sent to all registered growers, showing the number of votes cast for each candidate."

At the commencement of the meeting, Mr. Heriot's review of the past year, given in the form of a report, was the retiring delegate, was concentrated upon a few salient points. He reminded his audience that he had been sent to the convention at Kelowna last November with instructions to support a resolution to the effect that members of the Tree Fruit Board should not hold any other office. The delegates asked that at least 20 days time be given between the distribution of the annual report and the convention date, "and in this connection," Mr. Heriot said, "I am sorry to report that the Board did not comply."

Mr. Heriot also commented on the stress that had been laid at the previous convention on the necessity for contact between the Board and the delegates. "Since then I, as one delegate, have received not one single document, apart from the interim report."

Mr. Hembling's address to the meeting followed along the lines of the one given to the Vernon gathering a few nights previously. He pointed to the fact that the proposed amendments to the constitution, with the designation of the agency as the particular object of criticism. The Board did not instigate the growers' vote, he reiterated, though a suggestion was made to the B.C.F.G.A. that "unified selling" should be more clearly defined so as to guide the Board in reaching a decision, and for that reason growers were

finally given a series of alternate choices in interpreting their desires regarding this "unified selling." The dual selling suggestion had been turned down at Ottawa not because of the shippers' representation, but because of a wire from the B.C.F.G.A. This was the statement from the Ottawa authorities themselves. The B.C.F.G.A. President, however, had later made it clear that there was no intention to cast a reflection upon the confidence held in the local Board.

"It is quite unfair to attach blame to anyone for the way in which things have worked out," Mr. Hembling said with emphasis.

There is no definite policy for next season, he continued. Weak spots in the general legal structure have been enforced and there will be stricter enforcement next year. Pooling will not be followed out, next season, according to the feeling of the present personnel of the Board. A cartel arrangement will suffice, with Creston being given greater releases, and with that area paying 5 cents a box to compensate on a storage arrangement.

Mr. Hembling again attacked the auditor for releasing his report ahead of the time that the Board could fully study it, and stated that the report did not paint a true picture.

The inferences regarding the auditing of pools were first dealt with. Mr. Hembling remarked that to audit all the pools fully would have cost \$1,000. It was felt that there was a cross-check between shippers and the Board and that there could not be any very great errors that would not be detected in the Board offices. As a matter of fact, certain errors missed by the auditor himself were caught by the Board's office staff. However, in order to give credit to the auditor, it was decided to audit the McIntosh pool. This cost \$300, and errors totalling to a value of \$1.13 were discovered.

With regard to organization costs Mr. Hembling said that, "It did not concern the auditor whether we paid ourselves \$10 a day or \$40 a day, during the period in question. His remark regarding finding no authorization was not a professional remark." The growers might find fault if the auditor reported a payment that seemed over-large, but it was not for the auditor to judge the issue.

The scheme authorizes the payment of organization expenses, which was what the organization committee had agreed upon. It was an absolutely above-board transaction.

McGuire Answers Statements

Major McGuire, in opening his remarks to the audience, centred his attention on the question of the dual agency amendment. Mr. Hembling's statement had not placed the picture clearly before the growers, he charged.

The shippers had asked for a copy of the amendments in the early period of negotiations, but they were not able to obtain such a copy. Mr. Barrat, however, had said that there was nothing outstanding in the amendments. A registered letter was then sent to the Board, again asking for a copy of the proposed amendments.

Mr. McGuire said that he had not the copy of the scheme himself, in its final draft.

The next episode was the receipt of the wire from the Marketing Board at Ottawa, in which a limited time was announced in which the shippers might make representations to the dual agency proposal, which would have put some of the shippers out of business if implemented.

"Not only were the Tree Fruit Board members content to decide upon the dual agency idea, but they went so far as actually to select those two agencies," the Major declared, reading the text of the telegram which was sent to Sales Service from Ottawa.

From this wire it could easily be deduced, he added, that the Board members at Ottawa were actually pressing the Dominion Marketing Board to grant the full rights to the Associated and to Sales Service. There was also the natural inference, from the wording of the wire that if the two agency idea were not successful, the Board's representatives would press on for one selling agency.

"Regardless of what Mr. Hembling may say to the contrary, I am satisfied that he still had his goal of central selling directly in front of him all the time," the speaker said with emphasis.

While the shippers are not attacking the growers' movement to run their own business, they do see in the attempt to create a monopoly the prospect of a consumer resistance, "endangering the Act itself."

Opposition in the House of Commons is already in evidence to the marketing legislation, but the arguments so far are such as can be met. Though inequity and disastrous application of the scheme, real grounds for opposition could be furnished, however, and this should be avoided if the whole structure of control is not to be wiped out.

While at Ottawa, Major McGuire pointed out, he too represented a large proportion of growers, opposed to the central selling gesture. The Board is

## Einstein Studies Ocean Floor

Professor Albert Einstein, the famed proponent of the theory of relativity, studying the ocean floor through a glass-bottomed boat in the waters off Bermuda, where he is now vacationing.

wrong in assuming that it alone spoke on behalf of the growers.

The result of the growers' ballot was so indefinite that anybody can use it to support his own argument.

"The fact is that 18 per cent. of those who voted showed themselves as favoring dual selling, yet this was the final choice of the Board in pressing for an amendment."

Answering the charge that shippers have fostered discord, the Major pointed to the weekly co-ordination of the Board members. "Does this create harmony?" he asked, suggesting that the Chairman of the Board had "shaken hands with one hand and slapped faces with the other."

Turning his attention to the cartel operations, he defended establishing the office in Vernon.

"The shippers decided that the most economical point to operate such an office in would be Vernon, where the greater part of the inventories were more readily available. It has been shown, during the past season, that 64 per cent. of the inventories originated in Vernon and north."

The cartel was the main stabilizing factor last season. It attended to all data, in both domestic and export sales, established all percentages; while the Kelowna office, with a bigger staff, looked after merely the sales pool, which the Board itself says will not be needed next year, and admittedly was not of much value last year.

"The total cost of the cartel, which Mr. Hembling has attacked as under my management, was \$4,768, and I think should be pointed out that during the period it was operating Mr. Hembling drew out more in the way of salary and organization expense than that total sum."

The fact remains that it was the duty of the Board to keep everything in line during the past year. "It was their duty. No matter whose fault it was, theirs was the duty."

Attacking the Board for failing to announce definite policies at the outset of marketing operations, the Major stressed the heavy stocks of high priced varieties and large sizes that the shippers were carrying. Yet no meetings were held with the Advisory Council over a critical and lengthy period. Cold and commercial storage, peackings, and other features of the marketing that should have been clearly defined at the start, were embodied in no definite policy to guide the shippers.

It is significant, moreover, that there is no mention of the Creston deal throughout the Board's report, which should, according to the scheme, have been submitted for study no later than May 15, but which actually didn't come out till June 6. "The scheme says that the Board shall make such a report at such a time, and it was their duty to see that it was done, regardless of whatever else they were attending to."

It is no use in pointing to the profits made by shippers and others involved in the fruit business. The merchant, the paper manufacturer, the railways, are all looking for profits. That's why they're in business at all.

"But speaking as a grower I can say that until we get down to the fundamental question of a price basis to the grower in the future, there will be no reasonable hope for success in the industry's operations."

The dual agency suggestion was not turned down at Ottawa because of the representations from the B.C.F.G.A., the Major declared, refuting the statement made earlier by Mr. Hembling.

"The Board will not arbitrarily put business agencies out of existence. In concluding Major McGuire voiced the hope that all would sit down and consider this proposal of a minimum guarantee to the producer," and he was given a fine reception by the audience.

That he, too, hoped that everyone would get down to business was Mr. Hembling's statement as he took the platform again, in rebuttal.

The scheme says nothing about the auditor's report, he declared. And if there is dissatisfaction with the late time it was presented, the auditor, and not the Board members, should be criticized. As for the Board's own report, the delegates have had ample time to study it before they meet at Kelowna; and there still remains the final ballot of the growers, with even further time provided for study.

There was really nothing that could have been said about the Creston situation in the report. The district had the right to play out of the pool if it wished to, and its decision last season had no material effect upon Okanagan marketing.

The Board adopted a definite policy of avoiding a strict announcement of policy at the outset of the past season. "From time to time we were to decide, according to circumstances, on what our policy would be."

Referring to his costs incurred for organization work, dating back to 1933, Mr. Hembling said that "The Associated Growers paid for me at the time,

## MANY FRIENDS PAY HONOR TO LANDING COUPLE

OKANAGAN LANDING, B.C., June 18.—Mr. and Mrs. J. F. Miller were at home on Monday afternoon and evening on the occasion of their Golden Wedding, when about fifty of their friends from Vernon and the Landing called to congratulate them. The house looked lovely with a profusion of peonies, pinks, and snap dragons.

Refreshments were served in the dining-room, the table being centred with a wedding cake, made by Mrs. Miller, and vases of roses on either side. Numerous dainty sandwiches and cakes were served also. Those assisting with the tea were Mrs. P. R. Finlayson and Mrs. Dixon. Mrs. Willmot poured the tea, and Evelyn and Adrienne Cools served.

A very interesting article was a copy of "The Economist" printed in Shelburne, Ont., on Saturday night, with an account of Mr. and Mrs. Miller's wedding in it.

and then these costs were repaid to the Associated through me. There is no suggestion of putting agencies out of business, he continued. "That talk is all tommyrot." The shippers have all concentrated their fire against central selling, and have built up the alluring prospect of "cash at the gate."

This prospect is a snare and a delusion, Mr. Hembling declared in concluding. If shrinkage, storage, and claims are to be met by the growers, "What will you have then that you haven't got now?"

Heriot is Critical  
Quoting from Country Life of last November, Mr. Heriot stated that the Board was then of the opinion "that some central selling or storage plan will have to be worked out." He charged that this was an invitation to some such group as the Salmon Arm local, to go ahead and launch a central selling movement. The Board encouraged such a group to help it attain the goal of central selling, and then turns round and accuses the group of starting everything.

A brisk exchange between Mr. Hembling and Mr. Heriot ensued, with the former declaring that he had never laid the blame to any person or group.

William Middleton asked regarding the export levies, suggesting that the rate of one cent per barrel and half a cent per box seemed unfair, particularly considering the transportation costs faced by B.C. apples. Mr. Hembling agreed that this matter might well be looked into, while Major McGuire reminded the audience that the shippers had made a definite recommendation last year.

Major Cunliffe, in speaking of the auditor's report, remarked that it seemed a "very proper report; if he couldn't find the authorization for the organization costs referred to, it was absolutely his duty to say so."

Mr. Middleton then introduced his resolution suggesting that all prospective nominees at the Kelowna convention should be interviewed by the delegates, and that the result of the delegates' poll should be indicated on the ballots sent out to the growers.

This, he said, would assist some nominees who might not be generally known. The resolution was carried with no dissenting vote.

The election of the delegate was then proceeded with, Mr. Henderson placing Mr. Heriot's name in nomination, and paying high tribute to him for his work in earlier years towards the development of what is today the Dominion Marketing Act and the local fruit scheme.

C. M. Watson was nominated also as a delegate, but he withdrew, stating that he would prefer to see Mr. Heriot as the representative at the convention. Capt. Keenan, another nominee, opposed Mr. Heriot in the balloting.

That he would press for publicity concerning the Board's activities, with each delegate being a contact man with the growers of his area, was Mr. Heriot's statement, in briefly addressing the meeting. He said that he was convinced, moreover, that the Act would never come to a successful conclusion without co-operation between those who produce and those who market. The growers, he added, should maintain the control, but a capable business man should be in charge. The Board members do not need to give their full time, "and should not get half the salary they are now being paid."

"I am no speaker; I'm a fighter," was Capt. Keenan's remark. He said he favored Mr. Middleton's suggestion regarding interviewing the delegates, "and as a business man I would know their capabilities." He opposed Mr. Heriot's suggestion of part time employment for the members of the Board. "It was an all-time job last year, and will be again this year." He concluded that he would back Mr. Hembling, "as a man of capabilities."

The voting was then held, after which it was announced that Mr. Heriot had been elected.

## PRODUCERS URGED TO KEEP UP THE FLOW OF CREAM

(Continued from Page One)

was then, they had enjoyed a measure of success hitherto unknown. He thought the contract to be the turning point in the history of the association.

Working in Harmony  
A guest of honor, J. J. Tighe, said it was very pleasing to hear such remarkable tributes paid to the organization in which he had a part. He was in the beautiful Valley on a hot day and was enjoying every minute of his stay. He was delighted to find that here they knew little if anything of the prevailing depression which had wrought sad havoc with business the world over. He found that here business application and ability met with fair success. He noted the co-operative spirit which prevailed and said it appeared to indicate the trend along which success would be secured in the future. Producers and sales agents working in understanding and harmony of objective, seemed to get some place. The high average of intelligence of the residents in the valley appeared to make possible progress which could not be achieved elsewhere. The Okanagan Valley has the cattle, the plants, and the market. He wished them a continuance of the success already won.

Promising Outlook  
Everard Clarke, called on by President Coltart, expressed his feelings of regret and yet of satisfaction. Under Mr. Patten's direction, they had gone far. He hoped there would be no cessation of progress. The outlook he said is most promising. Sales of butter have been almost beyond their expectations. In other years and at various times, they had to face the problem of storage or sale on less remunerative markets. Following the success won at Provincial fairs, and the generous recognition of the quality of their butter by the splendid efforts made by the sales force, the demand had so improved that now he did not know if they would be able to satisfy the demand when the supply of cream begins to slack off. He appealed to the directors to so step up their fellow producers that there would be plenty to go around. Contracts have been secured for the supply for the Tranquille Sanatorium, for the Old Men's Home and sales at Revelstoke were fast increasing. This too at a time when competitors were finding difficulty in securing outlets for their products.

The Two High Spots  
Two high spots in the history of the association were said by P. Peters to be when they made the contract with the P. Burns Co., and when they decided to take in the Vernon district. Sixteen or 17 years ago when he was asked to try to see what he could do in Vernon and district and Lumbly the outlook was very black.

TrIBUTES WERE PAID TO Mr. Patten by James McCallan, S. Halksworth, J. R. Freeze, J. R. Gillians and W. S. Harris, and following this the directors transacted the business which was laid before them by Manager Clarke.

LANTERN LECTURE IN  
SALMON VALLEY IS  
THOROUGHLY ENJOYED

SALMON VALLEY, B.C., June 18.—Several of the folks in the valley gathered at the home of Mr. and Mrs. J. R. Freeze last Friday evening, when the Rev. W. J. Seider gave a lantern lecture. Mr. and Mrs. Freeze loaned their home for the occasion and provided a splendid lunch for all who were present.

Mrs. William Pringle and son, Leslie, of Hualar, and also Charles Mitchell, made a trip to Kamloops on Friday. Miss Irene Pringle returned with them for a three weeks' visit at her home.

Harold and Kenneth Hansen spent Sunday visiting friends at Deep Creek. Mrs. Veale, of Silver Creek, was visiting at the home of Mr. and Mrs. A. J. Heywood on Sunday.

Mr. and Mrs. R. G. Veale and children, of Silver Creek, motored to Deep Creek on Sunday to visit Mrs. Veale's parents, and also met her brother, Allen Kenney, of Vancouver, who spent the week end with his parents.

Mr. and Mrs. J. F. Duthie and son, were visiting in Armstrong on Sunday. Laurie King was in the Valley for a couple of days last week.

Miss Irene Pringle passed through to Silver Creek on Monday, where she will visit with her sister, Mrs. Leslie Veale.

Harold and Kenneth Hansen, who have been for the past few months working in the Valley, left on Tuesday for their home at Fort Moody, where they have secured other positions.

Wonders of Nature  
Katy: "What's in that package?"  
Dad: "Insect powder."  
Katy: "Insect powder! Well, good gracious, who'd think that bugs know enough to powder their little noses!"

## AS A CEREAL OR IN COOKING

it's FINE either way!

It's so handy to have a package of Kellogg's ALL-BRAN in the kitchen. Serve it as a cereal. Use it also as a wholesome ingredient in your muffins, breads, omelets, waffles, etc.

Kellogg's ALL-BRAN supplies "bulk" to aid regular habits. ALL-BRAN is also rich in vitamin B, as well as iron, an element of the blood.

Two tablespoonfuls daily will correct common constipation, due to insufficient bulk in the diet. In severe cases, with each meal. If not relieved this way, see your doctor.

The "bulk" of ALL-BRAN does not break down during digestion as does that of leafy vegetables, and is therefore more effective for furnishing the needed "bulk." It is a delicious laxative food... far better than patent medicines.

Get the red-and-green package at your grocer's. Made by Kellogg in London, Ontario.

Keep on the  
Sunny Side of Life

## OLIVER BOARD OF TRADE PROTESTS REGARDING DUST

Condition of Road Is Subject of Petition—Ask For All Day Customs

OLIVER, B.C., June 15.—Protest from the Oliver Board of Trade against the menace and danger of road dust is being forwarded to the provincial Department of Public Works. The matter was discussed at the recent board meeting, and several members pointed out that road dust was a menace to the safety and health of more than a hundred and fifty school children who were obliged to walk on the highway to school. Traffic is heavy on this road and drivers of cars say the air is so frequently filled with dust and visibility so poor that they have almost run over school children on a number of occasions. It is also feared the health of the children may be affected by breathing large quantities of dust.

Board of Trade members at the recent meeting discussed the advisability of keeping the customs offices at the international boundary open for 24 hours. They favor 24 hour service at the customs offices, and will co-operate with the Oroville, Wash., Business Men's Club and the Cariboo Trail Association in an effort to institute the continuous service.

The board of trade will hold no more meetings until next September.

Putting in the Time  
Judge: "How long is it since you were in court before?"

Prisoner: "Twenty years, your Worship."

Judge: "And what have you been doing all this time?"

Prisoner: "Twenty years."

## B.C. Agricultural Revenue is Increased by Three Million Dollars During Past Season

Total Reported As \$39,826,421 Compared With \$36,647,007 In 1933

The total gross agricultural revenue of British Columbia is estimated at \$39,826,421 for 1934 as compared with \$36,647,007, the revised estimate for 1933. This represents an increase of \$3,179,414, or 8.67 per cent, according to the synopsis of agricultural conditions in British Columbia for the year 1934.

A general increase in the volume of production was again in evidence in nearly all branches of the industry. Deflated values of all products of the farm and the reduced purchasing power of the Prairie consumers, however, have militated against the profitable disposal of much of our agricultural output. There are increases in the quantity production of dairy products, poultry—products, fruits, grains, fodders, root crops, farm and mals, honey, wool, and seeds, while small decreases are recorded in vegetables, tobacco and hops.

Imports of agricultural products from other Provinces in Canada are valued at \$10,133,546, as against \$9,314,365 in 1933, while imports from foreign points decreased from \$971,887 in 1933 to \$967,827 in 1934. The total increase in the value of all imports would therefore be \$815,140 or 7.92 per cent. This larger imports may be largely attributed to larger imports of live stock from the Prairie provinces.

The total value of exports is estimated at \$7,400,087, an increase from the previous year of \$963,333, or 14.96 per cent. Fruits, vegetables and dairy products show substantial increases over the quantities exported in 1933.

Fruits Increase

From a grower's standpoint seasonal conditions during the past year have been very satisfactory. The winter was extremely mild in all sections. Spring was exceptionally early, with the result that many of the spring crops were on the market from two to three weeks ahead of a normal year. The late spring and early summer was very dry and in many cases the berry crops were shorter than was anticipated at the beginning of the season, although the total production was heavier than for a number of years. Satisfactory rains, however, during the latter part of the season materially helped the apple crop which was harvested satisfactorily.

The dry weather at picking time naturally helped in the harvesting of cherries of which there was an excellent crop in both the Okanagan and Kootenay districts. Other stone fruits such as apricots, peaches and prunes were also heavy, being in some cases double the 1933 crop.

Returns in the case of small fruits were about the same as those of the previous year. The same situation also applied to stone fruits, while in the case of apples the price tendency was a little lower on the whole than in 1933.

The fruit crop was the largest ever recorded in the province. The total production of all fruits amounted to 287,474,000 lbs., valued at \$6,770,497, as compared with the 1933 production of 246,816,000 lbs., valued at \$5,964,878, indicating an

increase of 16.47 per cent, in quantity and 13.51 per cent in value.

The total production of commercial apples for 1934 is estimated at 226,982,000 lbs., of the value of \$4,332,147, as compared with 202,234,000 lbs., value \$4,118,833 in 1933.

Of the other fruits, the estimated commercial production and value for 1934 are as follows, with corresponding figures for 1933 placed within brackets: Crab-apples, 5,306,000 lbs., \$77,542 (4,912, \$69,478); pears, 11,702,000 lbs., \$325,240 (11,358,000, \$318,177); plums and prunes, 9,254,000 lb., \$293,051 (6,086,000, \$193,502); peaches, 6,386,000 lbs., \$275,449 (4,410,000, \$217,255); apricots, 6,046,000 lbs., \$246,043 (2,046,000, \$102,476); cherries, 4,720,000 lbs., \$291,097 (3,466,000, \$255,691); strawberries, 9,408,000 lbs., \$531,070 (6,644,000, \$387,141); raspberries, 2,548,000 lbs., \$180,450 (1,434,000, \$134,477); blackberries, 790,000 lbs., \$28,595 (610,000, \$21,936); loganberries, 2,334,000 lbs., \$108,339 (1,788,000, \$72,912); bush-fruits, 1,832,000 lbs., \$74,098 (1,614,000, \$66,875).

Vegetables Slightly Up

In so far as the production of vegetables in the Province is concerned, 1934 returns show a slight upward tendency in greenhouse crops. On the other hand, outdoor vegetables showed a small reduction from the year previous, although noticeable gains are recorded in such crops as tomatoes, cucumbers, lettuce, etc. About the same acreage of cantaloupes was planted as in 1933. The principal acreage of this crop is in the Oliver district, which has approximately 130 acres planted.

On the whole vegetable returns were slightly higher than in 1933.

The aggregate of all vegetable crops for the year 1934 was 64,935 tons, of a value of \$2,096,700, as compared with 65,234 tons, of a value of \$1,939,380, produced in 1933, indicating a decrease of 299 tons in quantity, but an increase of \$157,320 in value.

Grains and Dairy Products

Seasonal conditions were on the whole favorable. The spring was early and soil moisture plentiful. A July drought spoiled chances of a bumper crop in important districts, but still the harvest of field crops was nearly or above average.

Dairy Products

The production of milk during 1934 may be considered greater than in any previous year, due, principally, to a mild favorable spring and to a later abundance of pasture and forage. Liberal feeding of milk feeds has not, to any extent, been resumed. Prices, in general, are very slightly higher than in 1933.

In manufactured products, butter, cheese, evaporated milk and ice cream totals show substantial increases over the previous year. Creamery butter in particular, reached higher totals of production than ever before.

The quantity of creamery butter manufactured amounted to 5,962,883 lbs., which was an increase of 937,344 lbs., or 18.65 per cent, over that of the year previous.

Dairy butter shows an increase of 12,200 lbs., the 1934 production amounting to 2,014,700 lbs.

Live Stock and Poultry

The total numbers and values of farm live stock in British Columbia for 1934 are as follows, with the 1933 figures in brackets: Horses, 58,202, \$3,263,000 (58,059, \$3,228,000); milch cows, 98,700, \$4,738,000 (90,900, \$4,356,000); other cattle, 105,700, \$4,403,000 (109,400, \$5,003,000); total cattle, 204,400, \$9,141,000 (208,200, \$9,001,000); sheep, 173,100, \$866,000 (148,600, \$747,000); swine 46,300, \$521,000 (47,300, \$469,000).

The total value of these descriptions of farm live stock amounts to \$14,281,000 in 1934, as compared with \$14,102,000 in 1933.

The honey crop was the largest ever recorded in the Province. The total production of honey in 1934 amounted to 1,512,075 pounds valued at \$219,251, as compared with 1,240,880 pounds valued at \$167,519 in 1933, an increase in production of 271,195 pounds or 21.85 per cent, and in value of \$51,732 or 30.88 per cent. The value of beeswax produced in 1934 is estimated at \$3,780, as compared with \$3,182 in 1933.

The quantity of wool produced amounted to 954,000 pounds, exceeding the 1933 production by 127,000 pounds. The average value per pound of unwashed wool is estimated at 10 cents, as compared with 12 cents in 1933.

## New Nurse For Quints

Mademoiselle Cecile Lamoureux, a member of the Montreal Graduate Nursing Association, has been chosen to replace Madame Louise de Kiriline as nurse to the Dionne quintuplets while the latter is taking a much-needed rest.

increase of 16.47 per cent, in quantity and 13.51 per cent in value.

The total production of commercial apples for 1934 is estimated at 226,982,000 lbs., of the value of \$4,332,147, as compared with 202,234,000 lbs., value \$4,118,833 in 1933.

Of the other fruits, the estimated commercial production and value for 1934 are as follows, with corresponding figures for 1933 placed within brackets: Crab-apples, 5,306,000 lbs., \$77,542 (4,912, \$69,478); pears, 11,702,000 lbs., \$325,240 (11,358,000, \$318,177); plums and prunes, 9,254,000 lb., \$293,051 (6,086,000, \$193,502); peaches, 6,386,000 lbs., \$275,449 (4,410,000, \$217,255); apricots, 6,046,000 lbs., \$246,043 (2,046,000, \$102,476); cherries, 4,720,000 lbs., \$291,097 (3,466,000, \$255,691); strawberries, 9,408,000 lbs., \$531,070 (6,644,000, \$387,141); raspberries, 2,548,000 lbs., \$180,450 (1,434,000, \$134,477); blackberries, 790,000 lbs., \$28,595 (610,000, \$21,936); loganberries, 2,334,000 lbs., \$108,339 (1,788,000, \$72,912); bush-fruits, 1,832,000 lbs., \$74,098 (1,614,000, \$66,875).

Vegetables Slightly Up

In so far as the production of vegetables in the Province is concerned, 1934 returns show a slight upward tendency in greenhouse crops. On the other hand, outdoor vegetables showed a small reduction from the year previous, although noticeable gains are recorded in such crops as tomatoes, cucumbers, lettuce, etc. About the same acreage of cantaloupes was planted as in 1933. "THE NIGHT IS YOUNG"

STARS RAMON NOVARTO

Lilting romance of Vienna, borne on the wings of music, lends charm to "The Night is Young," Metro-Goldwyn-Mayer's glamorous new love story with songs coming on Wednesday and Thursday, June 26 and 27, to the Empress Theatre.

Dramatic highlights include the gay night at the Prater, the love sequence in the Forst, the romantic interludes in the wine garden, the dramatic quarrel between the archduke and the emperor, the gala night at the Imperial Ballet, the comical rehearsals backstage, the episode in the Gypsy district, and the never-to-be-forgotten musical farewell, in which haunting music and poignant drama are remarkably blended.

## ABERDEEN LAKE FISHING IS NOW IN FULL SWING

LAVINGTON, B.C., June 17.—Several of the local fishermen spent a day at Aberdeen Lake last Sunday. The fishing was good and all got their limit. Bill Husband and Bill Kirk were also up with a party. They report its a "swell" place to get lots of fish, but the mosquitoes were hard to contend with.

Miss Ellen Patterson is spending a week or two with friends in Vernon before leaving for her home in Victoria.

Mrs. Claude Husband has, as her guest, her mother, Mrs. Buell, who motored with friends through the Cariboo Highway. They expect to return via Wenatchee and through the States. They report that the roads were in splendid shape.

Mr. and Mrs. Douglas Gillespie are away at Harrison Hot Springs for the summer months.

Recent visitors to the Lavington School were Inspector Hall and Mrs. Cuthbert. The latter was an old time resident here, having, at one time, a small private school, when there were only about six pupils. Mrs. Cuthbert gave the children an interesting talk, which was very much appreciated.

The principal, Vernon Smith, has always accorded an invitation to the parents and others who are interested in the children; to visit the school at any time.

The annual school picnic is to be held this week.

BUILDING ACTIVITY

IS CONTINUING IN DISTRICT OF OLIVER

Auto Camp, Electrical Store, New Bank Building, Near-ing Completion

OLIVER, B.C., June 15.—Building activity in Oliver continues in a mild way with the announcement by A. V. Ablett that he will build a small store and open an electrical shop. Mr. Ablett has made arrangements for a lot on the main street just south of Curry's Service station, and will build at once. He is an electrical contractor, and did the wiring in the new Hotel Reopel. He plans to put in a two thousand dollar stock of electrical equipment and appliances.

One mile south of Oliver on the west side of the highway, J. A. Wells is building a new auto camp. Three cabins are under construction and the proprietor announces more will be built. They will be equipped with electric light and other modern conveniences. Mr. Wells purchased three and a half acres of land from the government for his auto park.

Construction of the new Bank of Commerce building is proceeding. The vault is built and the vault door hung; walls are up, the roof is covered with sheeting, and the walls are being prepared for the first coating of stucco.

# The Whole Town Is Looking

for ...

## "Ruggles of Red Gap"

... but he's taking a rest today preparing for his final attempt tomorrow to escape his hunters. Tonight Ruggles will be presented on the stage of the Empress Theatre, dressed exactly as he will appear when out tomorrow, Friday.

# \$20 REWARD

will be paid for his capture Friday. \$20.00 for six words.

Tomorrow afternoon between the hours of 1 to 3 o'clock the mysterious Ruggles will be shopping in one of these four stores: The Hudson's Bay Co., Safeway Stores Ltd., Openshaw's Variety Store; Nolan Drug Store. He may be caught in one of these stores or on the street, in fact, anywhere you can find him!

## "Are You Ruggles of Red Gap?"

He will promptly hand over the \$20.00, providing that person is carrying a copy of this week's Vernon News.

Make sure of your copy now, and carry it so that Ruggles can see it when you stop him. The Twenty Dollars must be paid today. If he is not caught Ruggles will give himself up at 3 o'clock.

Come to the show tonight! See the funniest picture ever made — and see the man you've been looking for, for the last two days.

Get your Vernon News now and get out tomorrow afternoon at 1 o'clock and visit these four stores. You cannot possibly fail to find him tomorrow after you have seen him on the stage at the Theatre tonight.

HE WILL BE PRESENTED ON THE STAGE AT 7.30 AND 9.30

## British Columbia Field Crop Union Issues First Report

The first annual report of the B.C. Field Crop Union is just off the press and offers to agriculturists an interesting resume of a very active year. H. W. German, of Chilliwack, is the president and H. Bose, of Surrey Centre, 1st vice-president. The whys and wherefores of the organization are interestingly presented in the report of the secretary, Cecil Rice, of the Department of Agriculture, Victoria. In part it is as follows:

In presenting my first annual report as Secretary of the B.C. Field Crop Union I have considered it desirable to first of all briefly state the reason why this organization was formed. For several years the Department of Agriculture at Victoria had been receiving requests from farmers for samples of seeds of both old and new kinds and varieties of crops for testing out on their farms. In some cases these farmers were situated in areas where the land was comparatively new and little information was available to them as to the best kinds and varieties of crops to grow. Other farmers were located in older and more established farming areas where there was a need for testing out some of the newer and improved kinds and varieties of crops. As far as possible the Department had been meeting these requests for samples of seed which were becoming more numerous each year. In some cases, however, it was not possible to supply the special kinds required.

The distribution of samples of seed at random in this way was not considered satisfactory for several reasons. In the first place no special instructions were issued in regard to the method of sowing the seed and no particular method of reporting the results was outlined. If any one benefited from the test it would be the farmer conducting it and no one else. It was therefore felt that if a set of tests could be drawn up for the Province as a whole and the same conducted through the medium of the members of a proper organization that this would be more satisfactory to everyone. Furthermore, it was felt that as nearly ever other branch of agriculture was organized the time was ripe for an association of those interested in improving their crops. For this reason a meeting of representative farmers was held in Chilliwack in May of 1933 to discuss the matter and it was unanimously decided to form the B.C. Field Crop Union. During the time the organization has been in existence it has received the fullest co-operation of the Provincial and Federal Departments of Agriculture and the Agronomy Department of the University of B.C. Much of the seed distributed for the tests this year was supplied by the Federal Department of Agriculture and as a result certain varieties, strains and kinds of seed were made available for testing out in this Province, which would otherwise have not been possible.

ITS OBJECTS

The objects of this organization are to test out improved seeds, various crops and the method of growing crops; to distribute information relative to crop improvement and to co-operate with all organizations in Canada interested in the improvement of agriculture and of field crops in particular.

Special attention is being given to those crops which may have a place in the feeding of all classes of live stock and every effort will be made to encourage farmers to produce many of the high protein concentrates which they are now purchasing. In talking with our Live Stock Commissioner and others I am told that live stock production will never make the desired progress in many districts of the Province until more field crops of the right kind and quality are produced. More attention needs also to be given to the management of the soil because if the soil is not in right condition it is impossible to raise productive crops.

In these days when the farmer obtains so little for his produce and on the other hand pays a high price for everything he purchases, it would seem that every effort should be made to make the farm as self-supporting as possible.

Provision has been made in the by-laws of the organization to enable it to extend its operations if considered desirable.

SIMILAR ORGANIZATIONS

The organization has been modelled along somewhat similar lines to that followed by the Ontario Agricultural and Experimental Union, the Saskatchewan Field Husbandry Association and similar organizations, which are functioning successfully in Canada, the United States and in other countries.

ITS PURPOSE

Much information of value relative to crop production in British Columbia, is obtained from investigation work carried out at the various Dominion Experimental Farms, University of B.C. and on the Illustration Stations. These institutions, however, cannot cover every local condition. There is need then for some organization which can obtain information regarding the performance of various varieties and crops under the special conditions existing in various localities in this Province. The British Columbia Field Crop Union, it is hoped, will fill this need.

ENTIRE PROVINCE

It is desirable to point out that this organization does not exist for any particular district but for British Columbia as a whole and therefore farmers in more distant points such as Central B.C. and in the Peace River should benefit from it as well as those in the southern parts of the Province.

The Association is being represented in the various sections of the Province through the medium of a director appointed by the District Farmers' Institute.

ANNUAL FEE

Any person wishing to join the organization can do so by paying an annual membership fee of one dollar. Every member has the opportunity of conducting on his farm one test each year. This test to be selected from the lists of tests sent out by the Association each year and to be carried out in conformity with the instructions laid down.

The amount of material which the Association has for testing out each year is limited and for this reason it does not guarantee to supply every member with test material. In the early spring a list of the tests available is sent out by the Union to the members. Each member has the opportunity of selecting one test and the material for the test is supplied in the order the application is received. In 1934 everyone who applied for test material was supplied with same.

It should be pointed out that everyone is not adapted for carrying on experimental or testing work and therefore only those who are prepared to give the undertaking the necessary care and attention should join the Association.

DISTRIBUTION OF MEMBERSHIP

The membership for the year 1934 was 130 members distributed as follows:

Interior	33
Praser Valley	29
Vancouver Island and Islands	20
Boundary	6
Central B.C.	18
Peace River	20
Kootenay	4

This information is not given with the object of creating any competition for membership among districts for the size of the various districts varies considerably, but rather to convey an idea of the general distribution of the membership.

EXHIBIT

At the annual Provincial Seed Fair held at the Exhibition Grounds, Vancouver, Dec. 10th to 12th, the first Field Crop Union exhibit was staged. This exhibit showed samples of the various varieties and kinds of crops being tested out.

In conclusion I wish to point out that our farmers are losing money annually by purchasing not only poor seed but seed which either does not carry a variety name or is of an unproven variety. The plots being conducted by members of the Union are small; at the same time the seed being distributed is of definite varieties. Any variety or strain which shows promise may be multiplied by the farmer himself. Experimenters are asked as far as possible to give the yields from their plots but this is not the all-important point. Care and interest in the work is very important too.

This report would not be complete without thanking the members of the committee, who helped to draw up the tests for this year; namely, Dr. Moo, Mr. Hicks, Mr. Rivo and Dr. Newton. Also, I wish to express my thanks to the Provincial and Federal Departments of Agriculture, our President, Mr. German, the executive and directors of this Association as well as to Mr. Newman, Dr. Kirk, Dr. Moo, Mr. MacLeod, and the various District Agriculturists, who have given every assistance in carrying on the work of the organization.

## BEARS VISITING TRINITY DISTRICT

Mother Bruin Sends Party Of  
Curious Men Into Head-  
long Flight

TRINITY VALLEY, B.C., June 18.—  
Bears have been frequenting some of  
the ranches lately, sampling the new  
crops of clover and hay.

At one of the camps, two bear cubs  
were seen by two or three of the men.  
Later they heard a crash in the bush  
and went to investigate. Suddenly a  
big mother bear confronted them.  
Their curiosity died instantly and they  
took to their heels. Their speed was  
such that one man did not pick his  
way carefully and landed uncomfortably  
in a puddle.

Thunder and the heaviest rain show-  
er known here for many years, mark-  
ed last Wednesday, as a day to be re-  
membered. The rainfall is most wel-  
come to all farmers.

Bible study class was conducted by  
the Rev. J. Brisco at the School here  
on Sunday afternoon, while Sunday  
school was taken by Miss Grace Bailey.  
Evening service followed.

Mrs. Harry Worth was a visitor to  
Vernon last week.

Pole and the trucks are keeping a  
lively traffic over the roads here these  
days, hauling being mostly from the  
Barnes camp off the Bobbie Burns  
Road.

### Modern Youth

Mother: "You know, Geoffrey, Nor-  
ma is nearly 17 years old, so today I  
had a frank discussion with her about  
the facts of life."  
Father: "Ah! Did you learn any-  
thing new?"

## GARDEN FETE AT OYAMA IS ENJOYED BY LARGE NUMBER

"Hillsborough" Is Scene of An-  
nual Affair Sponsored By  
Women's Auxiliary

OYAMA, B.C., June 17.—A most suc-  
cessful and enjoyable garden fete was  
held on Thursday of last week under  
the auspices of the Oyama Anglican  
Women's Auxiliary on the beautiful  
lawn at "Hillsborough," the home of  
A. G. R. Prickard.

The weather was perfect and the  
garden, always well worth visiting,  
looked its best with its rows of peonies  
in full bloom.

Shortly after 2:30 p.m., Mrs. Prick-  
ard and a few well chosen words, wel-  
comed all present and declared the  
fete open. Then followed a very pleas-  
ing program of folk dancing, led by  
a May Pole dance by a number of  
young girls. Other items on the pro-  
gram were a gypsy dance by Miss A.  
East; Scotch dance, Nancy McLaren  
and Kathleen Dunn; Irish jig, Barbara  
Gray, Beryl Trewitt, Gerty Lovegrin;  
Russian dance, Miss A. East; clown  
dance, Dorothy Stephen, and Rose-  
marie Darvill; hornpipe, Barbara  
Craig, Gladys Dungeat, and Joyce  
Beebe.

These little dancers were trained  
by Mrs. James Lowe, assisted by  
Mrs. Darvill, and they delighted the  
audience and proved themselves a credit  
to their teachers.

Vocal numbers were also rendered  
between the dances by Mrs. Dent and  
Mrs. J. White, both well known Ver-  
non singers, their beautiful voices be-  
ing heard to great advantage amid the  
perfect stage setting of lake, hill and  
flowers.

Another very pleasing item was the  
music supplied by the Oyama Trio from  
time to time during the afternoon.

Among the side-shows and attractions  
was the ever popular bean-bag games,  
also, clock golf, a weight guessing con-  
test, a gold mine search, and bagatelle,  
while "Gypsy Lea," a fortune teller,  
was kept very busy all afternoon.

The lucky winners of the various  
raffles were: Mrs. Brusso, of Postill,  
B.C., an elderdon; Mrs. Cousins, of  
Kelowna, a decorated cake, made and  
presented by Miss E. Hicks; Mrs. E.  
Turnbull, a beautiful pine needle tray,  
made and presented by Mrs. W. T.  
Hedder; Miss P. Dodson, a lovely em-  
brodered tea cloth, made and pre-  
sented by Mrs. J. Craig.

There was also a home cooking stall,  
a bran tub for the kiddies, ice cream  
and soft drinks and a tea tent, all of  
which were well patronized.

Mrs. and Mrs. G. Scott returned home  
on Monday from Vancouver where Mr.  
Scott has been attending the Grand  
Lodge of the I.O.O.F.

Mrs. Glassford came in from Cal-  
gary last week to join her husband on  
their ranch here, where she will spend  
the summer.

Mrs. E. Eyles left for Victoria last  
week to bring Barbara home, only to  
learn upon arrival that Barbara had  
contracted whooping cough and would  
not be able to return for the present.

for PIMPLES  
Add an equal amount of  
cream, or sweet oil, to Min-  
ard's, and apply the mixture  
daily. A simple treat-  
ment which will  
Clear up your skin!

## MABEL STARK TO APPEAR WITH WORLD'S GREATEST WILD ANIMAL CIRCUS

Many people who have seen Mabel  
Stark perform in the steel arena  
with her ferocious tigers will be in-  
terested in knowing that she is with  
The Al. G. Barnes Circus again this  
year and will be in

The circus this year brings  
hundreds of people with it, star  
performers from all parts of the  
world, beautiful horses, camels, ele-  
phants, yaks, llamas, lions, tigers,  
pumas, leopards, zebras, and hippos.  
The largest traveling zoo ever  
carried with any circus, is the cor-  
rect way to explain this interesting  
part of the show.

## Famous Pilot Makes Plea For More Attention to Commercial Aviation Activity in England

Scott Favors Expansion In  
Private As Well As Mil-  
itary Services

By C. W. A. Scott  
There is activity in the aircraft  
world. Air Force expansions have come  
as no particular surprise, though to  
other nations these may be viewed  
with a little concern. Our R. A. F. is  
to be doubled, trebled, and all this very  
speedily. Public opinion as to our real  
strength has been satisfied. That is  
for the moment or until other nations  
increase their own air forces and we  
are again left behind.  
All this increase takes time. I sup-

pose it would be possible to rush the  
mass of aircraft constructors into  
completing this expansion in quite a  
short space of time but this would  
mean that quite fifty per cent. of these  
rushed machines would be obsolete by  
the time the Air Force was doubled or  
trebled or had satisfied its require-  
ments. How long is it before a ma-  
chine becomes obsolete?

Let us take the life of an aeroplane  
from its very beginning. From the de-  
signer's brain to the drawing board.  
Through the aircraft shops and en-  
gine shops to the flying field. Tests  
and away to Martlesham Heath for ac-  
ceptance tests and heaven knows what  
by the R. A. F. Finally accepted as a  
service unit. How long? Twenty  
months? Not far off, and sometimes  
longer. In other words by the time a  
machine reaches a service squadron in  
any quantity it is a good two years  
after its design.

Of course, this applies to the air-  
craft of other countries as equally to  
our own, but what a gift it would be if  
a designer could visualize development  
and his country's need two years a-  
head of the date he actually designs  
his aircraft for the purpose it is at the  
moment intended for. Of course this  
attempt is tried but not often with  
great success. For instance, what de-  
signer of commercial aircraft realized  
the big swing of the pendulum to-  
wards high speeds two years ago? And  
if he had what scope there would now  
be for a really efficient high speed pas-  
senger carrying aeroplane!

It is worthy of note that the "Com-  
et" was designed and built and flown  
and meted all within the short space of  
time of eight months. But it taxed the  
capabilities and resources of the De  
Havilland Aircraft Company to their  
utmost to do it and it wasn't the  
really finished job they would have had  
it if they had more time.

I don't know whether it is the  
case in the Empire today, but I am  
ready to believe that there are  
still being operated along air  
routes, machines that must be at  
least ten years old. Obsolete from  
the point of view of being on a  
par with progress these many  
years, but nevertheless still doing  
yeoman service over the short dis-  
tances they were originally intend-  
ed for. There is a distinction be-  
tween obsolescence and unaf-  
fordability.

With all this expansion of our flight-  
ing aircraft I wish civil flying were not  
so much overlooked. True we have ac-  
tively along the Empire Routes, aero-  
dromes prospering and being improved,  
faster services promised and all that,  
but I cannot see that this is enough.

Under the Treaty of Versailles, Ger-  
many was allowed no Air Force. She  
was however allowed to create and  
foster her civil airlines. This she did  
with a thoroughness that is most com-  
mendable.

It was only suddenly that the signifi-  
cance of this army of civil aircraft  
became a bone of contention among  
the powers. These commercial types  
were adaptable. They were fast. They  
could climb. They could in fact, do all  
the things that were demanded of Air  
Force types. In other words there is  
not such a line of demarcation between  
commercial aircraft and service air-  
craft as was hitherto supposed. It is  
all too bad.

If this be the case then, surely it  
would be a sound idea to use our com-  
mercial aircraft as second line de-  
fence, or attack, machines and let  
them be of such a shape and size, and  
of such capabilities that although they  
are flying their peaceful way in these  
times of peace (?), they could readily  
be adapted for other uses in time of  
emergency.  
This is not a novel idea but it is one

## BRIDE-ELECT OF MARA IS HONORED

Miss Isabel Robertson Is Re-  
cipient of Many Gifts  
From Friends

MARA, B.C., June 17.—A very pretty  
shower, was held at the home of Mrs.  
Bertha Patterson, last Wednesday  
evening in honor of Miss Isabel Rob-  
ertson, youngest daughter of Mr. and  
Mrs. J. Robertson, whose marriage  
takes place shortly. Quite a number  
of the evening was spent in playing Court  
Whist, and in singing songs, after  
which the bride-elect opened the many  
parcels brought in by Mrs. Robertson.  
Supper was daintily served at 11:30  
o'clock by Mrs. Patterson and Mrs.  
Maccready, and this ended a very en-  
joyable evening.

Miss Trickle Robertson, of Enderby,  
is spending a few days in Mara, visit-  
ing her mother, Mrs. M. Witala.

Miss Esther Witala came home from  
Vernon last Thursday evening to  
spend a week visiting her mother, Mrs.  
A. Witala, before she leaves for Can-  
more, Alberta, where she will stay with  
her aunt.

Mrs. Len Screen was a Vernon vis-  
itor on Saturday last.  
Miss Trickle Robertson, of Okanagan  
Landing, came home last Sunday, to  
spend a few days visiting her mother,  
Mrs. E. A. Robertson.

Mrs. William Witala and Miss Edith  
Witala were visitors to Armstrong last  
Saturday.

Miss Olga Witala is home from Ver-  
non on a few days stay, with her par-  
ents, Mr. and Mrs. V. Witala.

Miss Vivian Witala came home last  
Tuesday from the Transvaal Sanatorium,  
having been there for the past two  
years. She has now fully recovered  
from her illness, and is able to be home  
for good. Her many friends here are  
glad to see her back home again.

that has yet to be carried out. Let  
there be an additional expansion to  
our commercial services as well. Heav-  
en knows it needs it.

There could also be an interchange  
of pilots. I know that commercial  
pilots can do the job of service pilots  
because most of us have graduated  
from the service to the other. But  
what I also know is that the service  
pilot is not so adaptable to the tasks  
that the commercial pilot has to per-  
form. If there were to be an increase  
in commercial lines and therefore an  
increase in commercial machines, part  
of the personnel or all of it, could be  
culled from the service and though in  
theory R.A.F. in actuality, doing com-  
mercial jobs of work. At the present  
time of course the summer months  
have a lot to do with it and with in-  
creasing prosperity and so on, com-  
mercial flying is at a premium. There  
are insufficient machines to cater for  
the demand. Manufacturers cannot  
produce quickly enough. It must al-  
ways be remembered that some manu-  
facturers do not produce until an Air  
Ministry contract is in the company's  
safe, but this is not a good policy al-  
though it may good from the share-  
holder's point of view. On the other  
hand when there is this sudden ex-  
pansion all activities are being direct-  
ed towards the production of fighting  
machines, or defence—call them what  
you will, and commercial aviation re-  
mains at a standstill. And this is just  
what should not happen at this pre-  
sent time.

Now is the right time to develop  
commercial aviation as it has not  
been developed before. I write that  
commercial aviation is at a pre-  
mium. One has only to look at  
figures and not the number of pas-  
sengers being carried, the number  
of miles flown and regard the num-  
ber of aircraft doing the job and  
you will see what I mean.

There are plenty of pilots, thanks to  
the R.A.F. short service scheme, but  
there are not numbers of aeroplanes—  
or if there are, they are not of the  
right type. Obsolescence plays its part  
here.

This week I have been commissioned  
to find for private charter a machine  
of certain capabilities. None of them  
very exacting when viewed alongside  
the types other countries are operating,  
but I cannot find one here, and a  
charter party worth a few thousands  
of pounds goes a-begging because of it.  
And still the fighting air service is to  
be doubled and trebled, and poor old  
commercial aviation still plods its  
weary way to South Africa and Australia  
at its leisurely pace and the ques-  
tion of linking up Canada to this  
country is left to some enterprising  
American or other or the Graf Zep-  
pelin—because we have quite enough  
to do already, thank you!

## SICAMOUS HEARS INTERESTING TALK ON RUSSIAN LIFE

SICAMOUS, B.C., June 17.—The  
meeting in the hall on Saturday night,  
addressed by M. MacKinnon, of Van-  
couver, was well attended, and those  
present were treated to a very inter-  
esting talk on conditions in Russia, the  
speaker having returned recently from  
a visit to that country.

Miss Noreen Brennan returned from  
Kamloops early last week to take up  
her old duties at the Sicamous Hotel.  
Mr. and Mrs. George Salt and fam-  
ily of Grindrod, were visitors at the  
home of S. D. Finlayson last Sunday.  
Mrs. Fred Peters is home again after  
spending a few days at the Salmon  
Arm hospital.

Feel  
fit  
all day  
long!

A BIG BOWL of Kellogg's  
Corn Flakes for breakfast  
will make you feel keener  
during the day. These crisp,  
golden flakes, in milk or  
cream, are full of nourish-  
ment and easy to digest.

Kellogg's are also tasty  
for luncheon or for a snack  
before bedtime. The heat-  
sealed WAXTITE inner bag  
assures full flavor and oven-  
freshness. Be sure to ask  
for Kellogg's—the original  
Corn Flakes. At grocers  
everywhere. Made by Kel-  
logg in London, Ontario.

## Is Your Life SUPER-SELECT?

WHAT do we mean by "Super-Select"?

Simply this: that if you are healthy,  
with a good family history, and not en-  
gaged in a hazardous occupation, you are  
probably a first-class life insurance "risk" and,  
consequently, are entitled to buy \$5,000 or more  
Confederation Life Insurance Protection with Total  
Disability and Double Indemnity Benefits, at the  
lowest possible premium rate.

A \$10,000 Super-Select Policy pays to your beneficiary  
\$10,000 at Death, or, if the beneficiary prefers it,  
\$97.50 a month for 240 months.

If you die by accident before you reach age 60, we  
will pay \$20,000 to your beneficiary in cash, or \$10,000  
in cash and \$97.50 a month for 240 months.

If you become totally disabled before you reach age  
55 (after six months of total disability) the Con-  
federation Life will pay you \$100 a month for 50  
months and then \$50 a month for 100 months. Then, if you are still  
totally disabled at the end of the 150 months, the Association will  
pay you a further \$10,000 in cash. This is the most desirable form  
of Life Insurance Policy that can be purchased anywhere. Fill out  
and mail the coupon and get full particulars.

Confederation Life Association.

718 Rogers Bldg., Vancouver.

Please send me particulars of your Super-Select Policies.

Vernon, B.C.

## THINNING WILL NOT BE SERIOUS FACTOR THIS YEAR

Present Indications Do Not Show Very Heavy June Drop In Vernon

The June drop in tree fruits is now in progress in the Vernon section, but it is not possible at this time to state the extent to which this may develop, although present indications do not show a very heavy drop. The set of most varieties of apples is not nearly what was expected from bloom indications, but where varieties in the orchards are carrying crops the set is as heavy as the trees can comfortably accommodate. Thinning, however, will not be a serious factor in the orchardists' operations this season. Sweet cherries are developing rapidly and appear to have come through the stoning period in good shape. Prunes have set a nice uniform crop and are just entering their stoning stage in the earlier sections, according to the news letters of the Horticultural Branch, issued here last Saturday.

The orchard pest situation, although not serious, is receiving careful attention from all growers. Powdery Mildew in some sections is very prevalent and may yet cause netting of the fruit if not checked in development very shortly. Spraying for Codling Moth control is in full swing. There are more Orchard Tent Caterpillars in some sections throughout the country than for some time past, and the Forest Tent Caterpillar is invading orchards in some sections. Although not at present serious, growers should keep watch for invasion of this troublesome pest.

All vegetable crops are developing rapidly at this time and in general show excellent promise. A few early cabbages will shortly be available for local consumption. The tomato acreage is in excellent condition. The first cutting of alfalfa is now in progress in the earlier sections with a promise of a good yield. Fall wheat is headed and in bloom but Spring grains are in need of a good rain to bring them along satisfactorily.

### Kelowna

To date the spring has been very dry and is about three weeks later than 1934, and a week to ten days later than normal.

Harvesting of the strawberry crop has commenced. The yield and quality is very satisfactory. Early cherries will start about the end of this month. Asparagus is about over. Early lettuce is being shipped, but about two-thirds of the early crop, owing to worm damage, will not be shipped. Early cabbages have also suffered heavily from the attacks of flea beetle and maggot. Apples dropped heavily in some orchards and the crop will not be as large as the blossom indicated. Codling moth larvae have been hatching during the past three or four days and worms are entering the apples now.

### Summerland Area

The past two weeks have been hot and dry. Vegetable and tree fruits have made rapid growth during this time. Cherries are commencing to color and picking may begin by July 1. There has been a severe drop in apples in some sections, while others show need of thinning. Apricot thinning is now over and peaches are being thinned where required. Pear thinning has commenced.

Tomatoes have set the first blooms fairly well and plants look very healthy. All spray machines have been busy this week finishing up the first cover spray for codling moth. The work has been interrupted somewhat by high winds.

### Penticton and Osoyoos

The weather continues hot and very dry. There is a very heavy infestation of Apple Powdery Mildew. First cover spray for codling moth is under way, and has been completed in the southern districts.

A few early cherries are being shipped from the Osoyoos district, as well as some early cabbages. Cucumbers should be starting shortly. It is not expected that any Bing cherries will be shipped before the last week in June at the earliest.

Haying is general, and so far good weather has been experienced in harvesting the crop. Rain is badly needed for the ranges and pasture lands.

### Salmon Arm and Main Line

Seasonably warm weather has prevailed since the beginning of the month and occasional showers have fallen. Up to the present soil moisture conditions are mainly satisfactory and plant growth is being well maintained.

Orchards in the Kamloops and western sections of the district are looking well, but the crop generally will not be heavy. McIntosh in particular appear to be "patchy," while Wealthy will be fairly good crop. Other varieties are generally rather light. In the Salmon Arm-Sorrento section some fruit trees are showing the effect of the severe winter and a somewhat light "set" may be expected. Sweet cherries show considerable injury and the crop will be light. Growers will be applying the third apple seed control spray about the beginning of next week. There is little indication of seed infection to date, and insect injury is not prevalent. Plums and prunes will also be a lighter crop than last year.

Strawberries are looking well with an excellent show of bloom and there is prospect of a much better crop than usual. Cane and bush fruits are coming along fairly satisfactorily.

### Vegetable acreages do not show any great variation from last year, with the exception of tomatoes and onions in which some increase is noted, and cantaloupes in the Kamloops district which show a very heavy increase. Vegetable crops are looking well but continued warm weather is required for rapid development.

### Alfalfa is being cut in some sections and crops are reported heavy.

### Grand Forks

There has been a very heavy set of fruit generally throughout the Grand Forks valley and the June drop will be very late this year. All tree fruits show indications of a heavy crop with prospects that the crop will be more than double that of last year. If the June drop is light a great deal of thinning will be necessary.

### Creston

The weather is showing signs of changing as it is cloudier, cooler with stormy westerly winds, which generally foretell rain.

## Duce's Son Follows Father's Footsteps

Displaying the same strong character lines as his father, Bruno Mussolini is pictured in the cockpit before taking the aeroplane aloft. It was his first flight as a certified pilot.

## Many More Tomatoes Are Growing In B.C. Producing Areas Than There Is Present Prospect of Marketing

### SCOUTS PLANNING FOR ANNUAL CAMP

This Summer's Outing At Otter Bay To Start On June 29

The annual Boy Scout camp at Otter Bay will commence on Saturday, June 29. It promises to be bigger and better than ever.

The two local troops will put about 40 lads under canvas. Kamloops is sending a contingent of 20 scouts and Revelstoke seems likely to have at least 15 representatives. It is expected that, all told, approximately 75 will be at the 1935 camp.

The program this year will be altered considerably. New games and contests are to be introduced and the test and badge work may undergo slight changes.

As usual Commissioner Morrow is in charge of the camp and Rev. the Hon. H. R. Heneage will enjoy his annual outing with the Vernon troops.

Several scouts and leaders of other years will not be able to attend the camp.

A feature of the camp will be the Old Scouts Reunion. It is expected that many enthusiastic scouts, of bygone days will grasp the opportunity some such Hospital Insurance scheme as Kamloops and Salmon Arm are operating now.

Only a year or so ago, this idea was voiced, and at that time it was proposed the Okanagan should have one Medical Association. Today, Kamloops, Salmon Arm and Kelowna are all working along the same lines. We trust Penticton will soon follow the rest, and that not only a portion, but all the people of the Valley, may enjoy the benefits of medical attention at reasonable rates.

Yours very truly,  
Roger F. Borrett.

Kelowna, B.C., June 17, 1935.

**CORRESPONDENCE**

Congratulations  
Editor, The Vernon News, Sir:-

Allow me to congratulate both you and the Directors of the Vernon Jubilee Hospital for urging for the Vernon some such Hospital Insurance scheme as Kamloops and Salmon Arm are operating now.

Only a year or so ago, this idea was voiced, and at that time it was proposed the Okanagan should have one Medical Association. Today, Kamloops, Salmon Arm and Kelowna are all working along the same lines. We trust Penticton will soon follow the rest, and that not only a portion, but all the people of the Valley, may enjoy the benefits of medical attention at reasonable rates.

Yours very truly,  
Roger F. Borrett.

Kelowna, B.C., June 17, 1935.

**Nova Scotia's "Mixed" Board**

Editor, The Vernon News, Sir:-

At the Coldstream meeting of registered growers held on June 13, Major McGuire stated that Nova Scotia had a mixed Board of growers and shippers, and "it was functioning well."

I explained it had nothing to function with, as the Board had only recently been appointed. Major McGuire's report then was, "at least, they were not scrapping."

This may be correct, but information just received would indicate the members of the Board at least are not unanimous. The following is a quotation from a letter just received:

"The shippers insisted that there should be shipper representation. Finally the Board was set up, consisting of two shippers and three growers. They had their first meeting the other day, and on every single question that

of the older beds the strawberry weevil is making his presence known. Raspberries have been in blossom for some time and lately the young shoots have come along rapidly. The total yield should equal last year's as the increase in acreage should offset the slight winter injury.

The cherry drop is about over, and the set was disappointing as compared with the quantity of bloom. The extreme cold of last winter affected the spurs and the cells of the sap wood slightly, just enough to inhibit circulation without killing the bud. Binga suffered quite severely, and Lamberts and Royal Annas to a less extent. The crop may be even less than half of what it was last year.

Pears and apples are setting nicely, but it will be the end of the month before growers are certain of what the complete set will be, as the drop has barely started in the late varieties. The winter varieties give every indication of a heavier setting than the early varieties.

Bush fruits are advancing in size rapidly, and gooseberries are about ready to pick this week.

Truck crops are all in, but the cool nights are not favorable for rapid growth. There will be no increase in acreage. Asparagus cutting will soon be over, also rhubarb. There is just a little forced lettuce moving.

Growers are busy putting on the first cover spray for scab. Cover crops are also receiving attention. Red clover and alfalfa is ready to cut, but pastures are in need of rain.

### Growers Who Skin Patches For Semi-ripes May Have Crop No. 2's For Canning

Interesting figures are presented in the summary of vegetable acreages as issued by the Department of Agriculture as of June 15. These show the acreages in tomatoes in the interior growing sections as totalling 2755 1/2. Last year there was 2346 acres, showing an increase of 162 2/3 per cent. Oliver leads the way in increases with 229 planted while last year there were but 82 grown. Kelowna comes along also with 775 while last year there was 650. Kamloops and Chase show a clear gain of 100 cars from 450 to 550. Vernon is up from 445 to 460.

What is going to be done with all these tomatoes? Some are going on the semi-ripe market, a great volume to the canners and there is prospect of many rotting in the fields. There is a huge carry-over of canned tomatoes and it is believed that barring a shrinkage of production in other sections of Canada the canners will take less than one year ago. One estimate is that there will be 60 per cent more tomatoes grown in the Vernon district than will be packed. Bulmans Limited are planning to pack every pound which they believe they can market.

Eastern grown canned tomatoes are now on sale in Calgary where they have been hauled overland and are being sold at dump prices f.o.b. that city.

The new Vegetable Board has set the prices of tomatoes for canners at \$13.33 for No. 1's and \$10.00 for No. 2's. Growers who are going to pick and ship their best tomatoes as semi-ripes, are liable to find the number two price will rule for their product delivered to the canners.

Last week Bulmans Limited sold two cars of canned apples overseas and another car is going this week. These sales were not made at what would be considered satisfactory prices but at prices which show an improvement over those which previously ruled.

An effort is being made to secure orders for canned apples and if it is unsuccessful the blame will lie on distance from markets and on the high freight rate. Nova Scotia can lay apples in Britain at 35c a dozen while the cost to canners in the Okanagan Valley is \$1.00.

came before them, the shippers voted for and the growers against."

This would indicate that, regardless of location or personnel of the Board, the two factions cannot agree. It is not reasonable to expect they would agree, as their respective interests are different. If agreement is ever reached it will be at the expense of the growers.

Yours very truly,  
O. W. Hembling.

Kelowna, B.C., June 17, 1935.

Greater activity was displayed in Canadian manufacturing plants during the month of April, sugar, meat packing, newspaper and steel being the bright spots. Flour milling also was more active. Output of sugar was 49,600 pounds as against 24,400,000 in the preceding four week period. The meat packing index moved up from 124.3 to 135.3. Output of newspaper in April was 222,244 tons, against 205,692 in March.

## REEVE POWELL WILL NOT STAND FOR FRUIT POST

Meeting At Summerland Exerts Considerable Pressure On Popular Grower

SUMMERLAND, B.C., June 17.—At a special meeting of growers held in the Legion Hall here tonight, W. R. Powell, Reeve of Summerland, refused to accept nomination for election to the Tree Fruit Board.

Considerable pressure had been used to urge Mr. Powell to act. However, the question of the members of the Tree Fruit Board holding their position as a part time job arose, and also as to whether the vote of confidence at last week's meeting was in favor of the principle of the Tree Fruit Board or of its present personnel. There was some indecision and when the feeling of the meeting was not unanimous Reeve Powell refused to stand, declaring that he believed it would be impossible to ably represent all the sentiments of a group of apple growers.

### CALGARY LIVESTOCK

Steers, choice heavy, \$0.50 to \$0.75; choice light, \$0.25 to \$0.75; good, \$0.50 to \$0.25; medium, \$0.45 to \$0.50; common, \$0.30 to \$0.40; feeders, \$0.30 to \$0.45; stockers, \$0.30 to \$0.40.
